Thread: [Hiring a GFX Designer to make a logo](#)

Luck 2 - October 22, 2022, 4:21 pm

Hello everybody, I am looking for a talented and creative GFX artist who can make me an awesome logo.

I run a sales team for a solar company and our team name is "Solar Sharks". I am looking for someone to combine solar and sharks to create something that stands out and encompasses the qualities of a shark (go getter, hungry, fighter,) etc... Please let me know if you think you are up for it and I will make sure you get paid for it.
