Thread: [My Minimalist Journey..](#)

HexKing - October 23, 2022, 7:08 pm

I live nomatically and am about to take on minimalist survival in a deep mountain range for a full year.

I plan on bringing things to survive, Some provisions and tools as well as some video vlog equipment + my laptop with a power source (solar). Obvious routes would be YT and IG for monetization and sponsorship, maybe purchase some boost on the account?

Ideas or possible parnterships?

UPDATE - I purchased a domain and created accounts on platforms.. depart date aiming for Nov 1st.

I will be doing preview and post-journey videos.

Very nice concept. I'd definitely look into doing some B roll shots for TikTok as well. That seems to be the quickest way to achieve some sort of following as your chances of getting featured on TikTok are much higher than the algorithms of google/insta.

Huh well, I'm not sure about tiktok its one of the only platforms I don't use so my knowledge base is limied.

Maybe post this in partnership and have someone handle the side of video editing and marketing.. I guess we will see.

There are quite a few content editing companies for hire. I'm sure you can find someone on here that does that. It will just take quite a while for you to build up an audience conventionally. You'll have to come out of pocket for a decent editor. Nobody is going to edit 200 videos before you grain traction to start being able to pay them dividends of the profit.

Money is not an issue for me. I am probably going to do that today.. Buy a domain and set up some basework. Create a thread offering paid partnership or something along those lines.

Perfect. I know a couple of editors. I'll reach out to them and see if any of them are interested.

Start a TikTok, and prepare videos now that post about how you're going on the journey.

OR set up a constant live stream to get viewers to donate etc while you do it

Ideas for promotion of a live stream? Including paid services.

That's pretty awesome, I love watching these type of shows, I don't have any recommendations but I'd love to get the YT and IG channels to watch.

Sounds like Alone but for a longer time period and more survival equipment.

This. TikTok has such a tendency for regular everyday videos to blow up and go viral vs competitors like YouTube & Instagram are usually progressively grown over time if not aided by TikTok.

You're welcome. I reached out to a couple editors, one is booked up and the other said he wanted to wait until after first of the year before he took on any new projects.

I guess working every day of my whole life makes me a bad ass? I'll take that as a compliment.

Maaan get your negative self out of here. If you read my post I said that money wasn't an issue for me.. I didn't say it in any ignorant manner or to be arrogant I was simply responding to a comment made.

If me being a successful adult offends you then, Respectfully, Grow up.

No, I don't think you get it. I'm not offended, I'm making fun of you.

??? Clearly. Your offended because I made a comment about being able to fund a project of my own and you either can't or simply felt like being ignorant. That's on you, have a good day man.

You're using the term ignorant ignorantly.

Sounds like you're planning on an extensive hike.

Make sure to bring enough money for any emergency scenario, they can happen.

For sure! I like watching survivalists' journeys. I've never seen one done out in the mountains only in jungles.

vegetajgd - October 30, 2022, 10:58 am

So how is it going so far. Any difficulties you are facing in anything at all? An any ETA when you will start your youtube ?

Boondocking land.. The availability in the Usa to freely live is dwindling man.. I'm aiming for a community that bought a grant for the purpose of minimalistic living and survival but I can't seem to get ahold of the couple who run the 'trust'.

Winter coming sucks, I wanted a place to do this before east coast snow hits the mountains. Thats a worry.. I planned on Jan 1st.. But I wanted to have an existing structure and just have a teaser video of me building and surviving out there doing that for a week or so.. Just mainly to build an audience and pre-build the basic structure. I'll be doing much more to it.

Found a few sponsors, so I have that at least going for me. I have the equipment I'll need.. Yeah

man looks promising other than land and time. I had done this prior for almost 3 years straight and I feel as if I have nothing to show for it. So this time I'll use platforms to raise awareness and interest in my lifestyle. HOPEFULLY some extra \$ to do it again from views and such. Who knows?

Much appreciated my man. This sounds like a book named "Walden; or, Life in the Woods" by Henry David Thoreau. If you have time, you can read it.
