Just a heads up you are way off on your price - you may want to research the market.

I'll buy it all for a better rate. Seems a bit too high

Main sites are selling .32/M - some people even selling bulk .29/M with people buying around .27/M.

It's way off.

Not trying to sales trash but want to give realistic expectations. GLWS nevertheless.

Anyone here from the comments selling GP themselves? No reply from OP and was wanting to purchase some quite soon if possible. Decided to come back and finally max out my account. Only got 4 skills left lol

Yes. Raids 3 came out 3 weeks prior and gold was inflated for quite a bit after. Fluctuates whenever big releases happen

Yes sir. Always happy to help. Sometime I come off as a dick for saying stuff black & white, glad you didn't take it that way. Cheers
