Thread: [Banned reported users bug](#)

When a non upgraded user is temp banned and the posts are removed it does not remove thread replies.

For example <https://hackforums.net/showthread.php?tid=6225630>

That thread OP is temp banned yet his thread now has the incorrect OP (atleast for non staff)

Furthermore if users quote the op, the quote still works.

I suggest temp deleting the entire thread of the banned user is OP

I think this is a known issue. It soft deletes the OP post but not the entire thread.

Who is the real author of the thread?
