user has not responded to me in a week, not all that interested in DD'ing over something small like this, but user has had more than enough time to atleast respond with me why these services were cut off.

Time stamps available on photo. Will accept any form of reimbursement/reactivation.

Damn, unfortunate to see such poor customer service. It's really not difficult to re activate cloud services from his admin panel if he were to take the time to fix it, either.

Hope you get this resolved.

Biggy - October 29, 2022, 6:06 pm

Same thing happened to me, doesn't provide what I bought unless I opened a dispute. Then he gets mad at me for opening the dispute lol.

ah I do not have you on discord. And it would've been important to mention a discord notification if it was relevant to me, dont you think? Either way not here for drama, lmk when something changes

skull - October 29, 2022, 10:47 pm

Upgrader has resolved issues for me multiple times. It happens sometimes that the service will shut down somehow, after all, they might not be interested in this kind of account setup, so I can imagine it can take a little while to solve.

Anyhow, Upgrader has been nice reimbursing me with me accounts.

SourceCode101 - October 30, 2022, 4:03 am

Well upgrader at least for me is HQ member. Shit happens sometimes i dont see any reason to not fix it for you.

But for sure no response for a week is very bad behaviour to his customers , i must agree on that.

But i believe he will fix the issue he wont risk his account for such of pennies.

StuffSneak - October 30, 2022, 6:31 am

I saw many of the Adobe providers were hit in last few days. But I am pretty sure [Upgrader](#) will resolve the issue or reimburse.

Ah yeah.. account age 5 months. I'm 99.9% sure you had an account here before and were closed for scamming.

You may have a lot of Pop and posts but it just make it clear to me; you're a multi trying to hide the fact that you are a multi.

Suck my cock you piece of shit. Also, carding not allowed on HF so refund and suck omni's balls.
Damn.. ?

Upgrader - October 30, 2022, 7:52 pm

My current solution is a working plan in 3-4 days or a partial refund that's adjusted to time used, lmk.

Time used, on a year plan, 1 month in? Would prefer a key. if that becomes an unavailable option lmk.

Omniscient - October 31, 2022, 11:32 am

Get this resolved please.

Gambeezy - November 1, 2022, 4:20 pm

Just joining in on this to mention I'm also waiting for my Youtube Premium account I'd purchased from them to be fixed. I didn't realize they had a roadmap to fixing the issues, but a response to my inquiries either on or off HF would have been appreciated. I'm happy to patiently wait a little longer

for the fix, but please keep us updated.

Same issues with CC. I see my group plan activated but still cannot use any adobe program. All programs expired.

Interesting you're still replying. Actual loser with no life

As mentioned in the discord and here we're actively working on Adobe and YTP.

If you would like a refund instead of waiting please reach out, otherwise expect a short delay as progress has been made just awaiting implementation.

You are not answering to your costumers but the way.

I wanted more products to buy from you (+ referring to my friends too), but sadly I changed my mind.

No. He has banned himself for time being. Ubers can ban themselves when they are going away for vacations etc. so that their accounts are not compromised while they are gone & people can see they are not active in that period/gone on vacation.

Hope you get your refund [Bankrupt](#)

Cooligan - November 4, 2022, 8:55 am

Damn, I didn't expect to see something like this about [Upgrader](#)
I feel like he'll refund/resolve this once his vacation ban is up, maybe he had some unexpected IRL issues come up. Who knows.

Though the communication could've definitely been better on Upgrader's end. When you run a service especially ones like the ones he does, response time is everything. Also not gonna lie it's kinda sketchy seeing he vacation banned after he knows he has disputes opened against him. I really hope he comes back and is able to resolve this without further issue.

Best of luck brotha [Bankrupt](#) <3

He could of said ANYTHING. Like let me make something up real quick "Hey i'm pausing sales of_

service / item. We are having an issue with these accounts deactivating / becoming unverified. I wanted to let everyone know I'm aware of the issue and will be working on a solution. If I can't find a solution in the next week I'll reach out about getting refunds sent to my customers. I'm sorry about the inconvenience". Anything like that would of avoided the situation.

Unfortunate. Guy exited for what, a total of 120\$? Maybe double check this guys not a multi if you can... seems like an awful small amount to lose an account over, unless he was building this account on the side and didnt care to be permanently banned.

\$120 that we know off, he most likely scammed a lot more people in the process, maybe even some bulk customers as well, i'm confident he also advertised on more forums then HF alone.

He also contacted me if i wanted to find a buyer for his store for 5k giving me 1-2k if i would, maybe he found one on top of all that he scammed.

Like i said previously, unfortunate. And after giving it some thought i know why he opt'ed to not pay, your gunna see kids 6 months into their adobe CC, etc, and see new disputes every day if his service methods were patched. Gunna be alot of DD's.

Pretty sure he had more. Already 5 disputes on hf. Many will be there in actual. He had his discord server as well.

This is what I mean, I've spoke to Upgrader a few times and it was always pleasant and he seemed to take his business seriously. From what I understood he was even in the process of creating a new service, and I know he was doing very well with his account upgrade services. He sort of took that market by storm, so it's just really surprising seeing him exit for such a small amount.

Granted, we've all seen people exit for much less and who have also been here much longer.

I hope the investor requested proper terms and/or setup a contract and discussed what if his business would fail/go bankrupt as that happens often online.

<https://upgrader.store/> still seems to be running though just without the adobe products, maybe the business hasn't failed yet but had to take the adobe products off only.

Important to note, this dude sells a service with year dedications, and if they fail he hides any history of dealings with them, and moves on. Typical Scum.

It's funny to see that people never realized this, but most of his "B ratings" from contracts on HF looked pretty fake to me.

Hey friend, you are slightly wrong! ;) I noticed, and he was very sketchy when he refused to do a contract deal over HF for his "store/methods/alias". He wanted me to send all of it first in Crypto. ?
