Thread: [Botnet renting](#)

system_punk - October 30, 2022, 12:32 pm

Hi,

Any options to rent a botnet for affordable price

Thank you

Richest. - October 31, 2022, 5:44 pm

We need more information.

What botnet? Android, Windows?

There are tons of forums with plenty of sellers tho, so if you look around you should be able to find something.

We also need to know the size of the botnet

You should also mention How many Active and How many Total Bots should be there on the Botnet. Mentioning your Budget Can also help you.

Richest. - November 9, 2022, 6:43 am

Mentioning the budget will definitely help.

Nope, i can guarantee you that only scammers will contact you.

Depends on your needs which you didn't even specify, you can buy malware(a botnet in your case) then setup it and spread. That's your only option
