I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

The more you purchase the cheaper the price per 1000 bytes gets.

It starts off if you want to purchase 1000 you pay \$2.40 for 1000. If you purchase 10,000 it goes down to \$2.25 per 1000. Goes down from there. You get a discount for buying in bulk.
