Thread: [Pre-Orders for MW2 Unlock All](#)

JuJu . - October 30, 2022, 5:02 pm

Taking pre orders for MW2 unlock all services. I may potentially bring in a very high quality low key cheat as well. It's a very closed knit community but if the interest is there I will offer that as well. Waiting a few days potentially a week or so to see if any bans come in from the unlock all service. You are not required to pay but customers who do will be prioritized. Please create a contract with me if interested or send a PM :)

Only interested in unlocks, but is it hard unlocks or soft unlocks?

Soft unlock for now. Anyone offering hard unlocks at the moment is scamming. I can also bring infinite Advanced UAV.

What is the difference between soft and hard unlocks?

"hard unlocking is a form of which is tricks the game into thinking you unlocked it legit. with almost no ban risk. while soft unlocking manipulates the game to give you the items until restart. highly bannable and risky."
