Thread: [Won 960 GBP in 2 hours spinning the roulette.](#)

Blockonome - November 2, 2022, 8:26 am

Hi guys,

Just started gambling today on online roulette and I had some very good beginners luck.

Won £960 in 2 hours! This was from a £50 investment. I did have another £120 after cashing out the £960, but I lost it and decided that it was time to stop.

Anyone playing roulette from HF?

Good on you for having the power to stop yourself.

When I was deep into my gambling addiction I always struggled with taking my gains and stopping at an appropriate time. My mains were blackjack and sports betting. Roulette a few times, but I found the pace to be too slow. Didn't particularly like watching the ball spin around and around.

Any particular strategies you used? Martingale, Paroli, etc.

To be honest, there was multiple times I only had £10 left of the £50 and I just bet it all on my "Favourite" number, which then it landed on. So just incredibly lucky. I did go for some systematic approach, which sort of worked, but not without hitting directly on certain numbers.

Incredible luck there. Congrats!

As long as you're having fun...

Well done OP

A wise decision, it's better to leave sooner than then regret not doing it. I myself avoid gambling. I've never been lucky with this?

Winning strategy - quit after winning.

Die - November 9, 2022, 1:25 am

Sick wins, make sure to quit while up
