I am selling Amazon AWS Account with 100K SES LIMIT. Account come with primary email access it's a legit old account made by me.

What is Amazon SES?

Amazon Simple Email Service (SES) is a cost-effective, flexible, and scalable email service that enables developers to send mail from within any application. You can configure Amazon SES quickly to support several email use cases, including transactional, marketing, or mass email communications.

Account region: Ohio

SES Limit: 100,000 emails per 24-hour period /25 emails per second

Price: 500\$ BTC/LTC

## Terms & Conditions

Once ordered, there's no refund. I will only refund if I am unable to deliver you the account within 24 hours of successful payment.

I will not provide a replacement if the account gets suspended due to Breaking AWS terms; AWS Acceptable Use Policy, Bounces, Complaints, etc. Sending SPAM emails will get the account banned and I will not provide any refund or replacement.

We can use MM but you will pay the MM fee.

These accounts are really hard to get approved these days and are extremely rare. Can go out of stock anytime. So, secure yours now!

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,  
Stanley
