Usually the first thing Ender 3 owners print are modifications for their Ender 3 haha.

Here are the first things I printed:<https://www.thingiverse.com/thing:2920060>

Here is a toolholder I tweaked:<https://www.thingiverse.com/thing:3337051>

And here are a couple HF related models:

Update, I started to play with sketchup and thinkercad it is really fun to model parts that are discontinued for my cars. I might start selling theses since no one can get them anywhere and they are a direct replacement for oem ones.
