Thread: [Binding an EXE to a RAR when opened](#)

avatar111111 - November 6, 2022, 2:18 pm

Hi guys

I'd like to know how can I bind an exe to a rar archive, so when opened/unzipped it runs the EXE?

I couldn't find any info on the internet about this topic, so please answer :D

Thank you

You can only create .SFX installer(self extracting installer) there is no other way around it.

You can use any advanced file binder to bind any type of different extension files together for whatsoever purpose. The output will always be .exe tho.
