Hello?

I decided to share the collection of tools I have gathered. I have tested all files on VM and showed no malicious symptoms, but still use common sense when working with them?

Below is a list of the individual tools:

Quest Crypter

RedLions Binder

Refacts Crypter

Saddam Crypter

Shock Labs File Binder v1.0

Sikandar Crypter

Simple Crypt0r v2

The DarkNess binDer

uBinder

UltimateLogger

Unknow Crypter Private

ZMini

0 Crypter

2021 Crypter

Black-Crypt

Byte Crypter V3

Chrome Crypter 4.9

CrypteX Advanced

DarkBinderV1

Easy Binder

Entropy v5

Grieve Crypter 2012

High Life Crypter
