Thread: [Private Money Making Method \[\\$5,000+ Per Month\] | Autopilot | Guaranteed Earnings](#)

Alan - November 9, 2022, 6:27 pm

So I've been testing this unique money making method and have been making \$4-5k per month for 6 months.

This is NOT!: Surveys/CPA/Ewhoring/Selling/Affiliate Stuff/Gambling/Anything else you've seen on this forum.

Countries it works in: Worldwide.

My method is GREYHAT. What you're doing won't get you in trouble but it is against the company's TOS.

I recently fell victim to another bullshit eBook seller on here and I decided to provide something so people stop getting screwed.

The price for my method is \$150 and I am willing to accept MM.. If you want me to set up everything for you & purchase all the required tools it will be +\$100. Investment: \$100-150 to make ~\$2,000 per month. The more you invest = the more you earn.

After the first 5 Sales, the price will be increased to \$300

After those 5 Sales, the price will be increased to \$450 for the rest of the sales.

You will make your money back + Profit in 45 days, the only way you'll fail is if you don't follow my mentoring step by step.

This method cannot get saturated!

Whether I sell 10 or 100 copies this method has been going strong for 5+ years, the company makes money off of your executions.

I will be mentoring you 1 on 1 until everything is set up flawlessly on your end to ensure no issues occur.

You will also receive access to my resources to help you scale this method to a consistent \$5k+ per month.

I also will be showing you exactly how I run my method and how to turn it into a fully legal business that you can pay taxes on, etc..

PS: The good news about having a business is you can take out business loans once your credit is built, to invest into other avenues :)

No point in showing payout proof as pictures can be from something outside of the ebook, faked or someone else's.. I would rather you see the money hit your bank account to vouch for my legitimacy rather than seeing numbers on a picture lol.

Payouts are every 45 days, so it'll be hard to accept MM until payout. We can discuss terms privately.

Options for withdrawal are PayPal, Wire/ACH & Check (USA). For EU/UK they have options such as SEPA.

For Asia and other countries I'm not sure what methods they have, but that can be figured out easily.

As long as we can come to terms I am not against using a Middleman, I want both parties to be safe because I know how these ebook sellers are on here.. I don't want anyone to get screwed over

like I did.

2 VOUCH COPIES ARE AVAILBLE FOR HIGHLY REPPED MEMBERS

I'll take vouch if you'll have me. Looks like an interesting method!

If you deem me reputable enough, I would like to take a vouch copy in exchange for a detailed and thorough review.

No you won't lmao

I just don't want someone to give a vouch based off what I told them, would rather reviews with payment proofs etc..

Alright fine with me, since nobody else popped up. PM me & start a contract.

I want to correct myself since I cannot edit the thread anymore:
The investment required to make a minimum of \$2,000 per month is \$200.00
This would be if you went through my provider^ But otherwise could be around \$400-500.
I am limiting the use of my provider since I use him as well for my own setups.
Once everything is set up you won't need to do any more work/invest more afterwards. It'll be a
GUARANTEED paycheck EVERY MONTH!

Zion Williamson - November 10, 2022, 8:57 am

I'll take the last vouch copy. I have bought tons of methods on here.

I know it takes 45 days to payout, but once you're paid post payout proofs etc..

If [Zion Williamson](#) takes the vouch copy then there's one more available.

So far one person bought, and waiting on the current people who requested a VC to start a contract.

Should have some initial reviews soon, hopefully..

One vouch copy provided to [jBarrel](#)

Last one available. DO NOT CONTACT ME FOR A VC IF YOU WON'T/CAN'T EXECUTE THE METHOD!

4x \$150 copies available

5x \$300 copies available

5x \$450 copies available

I decided that after the final copies are sold I will close the thread to keep a small team to work with.
I'll be scaling my method to \$10k+ a month by March of next year, not in a rush to sell to anyone.

For the people who ask "Why not keep it private and scale it yourself?"

My answer to that is: I already am scaling it myself and I'm making decent money from it every month.

15 more people executing this method won't make a dent in the company's revenue, as they make high 8-9 figures yearly.

I'm offering the opportunity for HF members to stop buying these shit "get rich quick" eBooks and get into something that will make a consistent income every single month. Regardless if I sell all my

copies or not it doesn't affect my earnings, I've just personally experienced enough bullshit from eBook sellers and their public trash methods, then not wanting to refund when users request.

Go check my recent deal dispute and you will see exactly what I mean.

That's my reasoning for why I'm selling this method, if you don't like it then feel free to leave my thread.

Also to note for all future buyers.. I miscalculated some of the costs, it's about a \$200 investment required to start but:

\$200 will make an average of \$2K per month at first, after your first payout you can invest another \$100 to add +\$2,500 to your income.

After the initial things are paid for, you'll only need to invest in 1-2 other materials x the amount you want to scale to. NOTHING ELSE!

Last thing to mention:

This will require 4-6 hours a day of easy work (something you might already do).

If you don't want to do this, you can pay someone else to do the "work" after you cash out (that's what I did initially).

I can help you with making it autopilot, and give you ideas but you must do it uniquely or you MIGHT get detected & banned.

I personally prefer doing it yourself or hiring people to do it, but the decision is yours to make.

PS: The 4-6 hours of work required can be done to make \$2,000 or \$5,000+ per month.

The only big factor is the investment amount.

If you have any questions/concerns you can either add me on discord or PM me on-site.

podster - November 10, 2022, 9:54 pm

You mentioned "materials" is Everything is done online or some offline?

Do You be in contact anyone or the company on a regular basis?

Since you mention here that 1 VC is still available, I would like to take it. I am an old member of forum & I believe I have a good standing & trustworthy account.

I have already sent a contract for the same. If you would like, accept it and send the method. I will write a detailed review. I will also put in all the efforts in the method if no other obstructions arise and post results periodically.

If not, deny the contract & GLWS!

I got a vouch copy from OP, the method itself is worth it.

It requires a little initial setup and if you configure everything to make it work autopilot it really has the potential to make a good amount of money.

OP is very kind and helpful, he explains you and gives you everything you need to get started.

I would say that more than buying the classic eBook, it's about buying a method and a mentorship, which has its own reason.

During this time I will try this method which as already mentioned seems to me to have potential.

I'll keep you up-to-date

Thank you

Stop bullshitting, you just want to cover your losses by selling so called private method that generates money. DWC guys, this guy is sketchy af. ?

And I find it funny how you try to 'insult' me by saying I sell Reddit accounts. Bitch I don't sell shit nor do I use HF to sell anything anymore.
