Do you have any review copy? I would give detailed honest review of your method. [warn]

JuiceBoxCereal - November 10, 2022, 12:41 pm

I'm curious what the bot actually is as I don't want to use it for the niche you're describing but I want a way to automatically chat with leads.

Carmine Jr. - November 11, 2022, 2:55 am

Posting here to see if it is actually a good thing to buy! Waiting on reviews.

Yeah ofc, like thats what the custom bot is for like the bot will bring a constant flow of traffic of people to msg you then all you gotta do after that is you can ether take over or use one of the fully auto modules for the bot to chat to them in a really narrow ended fashion and it works insanly well. Please add me on discord though, if youd like to see examples some of my customers got 3k+ people of traffic to theyre server and is making 1k a day from the bot.

StuffSneak - November 12, 2022, 12:10 pm

I received a review copy for this product from [SirHugs](#) and below is my honest review for the same.

Quality of Product

It is a 43 page PDF document which is very well formatted with clean font text along with photos/screenshots wherever necessary. Apart from this, you are also added to 2 discord groups. 1 is general group & 1 is for all the customers where [SirHugs](#) shares the stuff like his traffic bot, multiple packs, video tutorial and other resources used in this method. I also received a Discord account & token to utilize for the ewhoring. So its a 10 on 10 for the quality of the product.

Method

The main selling point in this product is his custom bot which actually brings traffic to you. So you are actually busy talking with people and not trying to find victims. Other than that, there is usual ewhoring stuff you would do once you find victims. I did set up the bot and it actually to test this & it got me 3 people in DMs in matter of 20-30 minutes. I actually am not working on ewhoring at the moment due to time limitations but I will definitely set it up to full scale in few weeks from now. So the MSP of this product is the traffic you receive directly. i. e. People will DM you on their own and you just have to play them afterwards.

Price

I am very much sure considering the stuff you are receiving in this package is very well worth it. If you are already experienced ewhore, you will make it back in no time. Even if you are new, you will make money in few days. Very much worth it.

Support

[SirHugs](#) is offering 1 on 1 support and this all time & there are many people already in discord server who help out each other. He seems friendly and helpful in all manners.

Overall I feel this is very good product. If you have a little experience in ewhoring, you can definitely go for this.

Thank you [SirHugs](#) for giving me the opportunity to review this. Good luck with sales!

How does it bring traffic? Do I have to find the traffic myself to my page and this bot then talks to people? Which platform are they using to talk to me? Can I send links for them to purchase products or will the links be blocked?

Itll get traffic by the bot will first go into like nsfw servers/chatrooms ect and kink ones like ones with like 300k+ people in them and theres like 1000's of those, itll say like "dms open" ect and itll go through the list, then like itll send that to the server which already gets alot of people to msg you and itll do that like every hour and to like tons of servers. Then you can run the full auto bots after, so like the bot will then after they msg you talk to you and redirect them to your traffic source. Like Ive had a customer who've made over 10k from that one, and just grown from the bot and I can show you proof aswell if you dont believe me. In my discord and on other forums (Which I sadly cant add here) I have daily peoples earning and posting vouches. Also for the platform its discord, and yeah you can use the group module where itll chat to them in a really narrow fashion, to trick them into thinking your real and getting them to join and possibly end up buying and have your link in there or you can it directly through them when theyre messaging the bot that way.

Also there is no way for links to be blocked.
Vouch is still available to anyone interested!

I received a vouch copy from OP to leave a review on the method.

He has a nice and easy to read 42 pages eBook that covers a interesting method that I was aware about but never knew how it actually worked and I can see there is pretty good potential in it. He showed me conclusive proof that it works as promised and can be really scaled. His ebook has some really good tips & tricks (hotkeys) to make the process easier and faster (wide out time wasters, offer menus etc.) and modules that will chat for you, along with some useful tools to verify to any potential costumer you are real(voice changers, text on paper etc.) and some additional methods depending on how much you want to push your earnings. Also, he offers a pretty active server with tons of resources like packs, tips, tutorials and all you need to run the method without having to waste any time looking for things.

Pretty much a value for money ebook that comes with pretty good support, SirHugs has my vouch, GLWS ?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
