Who remembers the UB Funkies? Like the predecessor of Skylanders?

Anyone ever fw those?

I never had a physical toy, but I remember getting a disc game when I was a kid from Wendy's or something.

Yeah, I remember playing this as a kid but I know for a fact I never had a physical character or anything.

Edit: Looking at that video again, I'm not 100% sure if I was playing actual UB Funkeys or some Wendy's special.

Huh that's really interesting. And a Wendy's special? I'm not sure if they promoted their game through fast food but I can look into that.

Really neat! Nostalgiac game even tho it was pretty underrated and died fast lol
