Thread: [Ewhoring Mentoring ~ Only \\$50](#)

kookur - November 9, 2022, 11:52 pm

Hello it's Kookur and I come from India and I've been ew'ing for almost 5 years now. Living in a third world country has many advantages and disadvantages but with ewhoring I'll count the advantages. Jobs pay average 200-300/ month here where you work 40 hours a week but by ewhoring I make more than that in a single day and can afford to live a lavish lifestyle.

Go through my previous threads or posts for income proof or message me.

I'm offering Live sessions on discord/Telegram. Discussing everything from where to get Traffic, Packs and How to invest in ewhoring for better results.

Reddit Traffic : Requires minimum \$15 Investment

ROI : \$150-200/2-3 Hours of work.

[BRAND NAME REMOVED] Traffic : Requires minimum investment of \$50

ROI : \$300-400

I'll start from scratch and mentor you in everything regarding ewhoring. From traffic to chatting, everything will be included.

[contract=tid]Start Contract[/contract]

India is not a 3rd world country no more but a 2nd world country because of rapid development of modernization and globalization, india has achieved big economic growth and can no longer be defined by poor economic status or low GNP today.

Either way, i wish you goodluck with this!

Could you please elaborate on this statement relating to the topic.

nvm i actually just read the thread

Old time friend, guy is very knowledgeable.

kookur - November 10, 2022, 8:56 am

To everyone wondering why I'm selling this mentoring for 50 bucks is because I want newbies to afford it and I work as an application developer 40 hours a week so I don't get much time for this as I have depression and I fucking sleep alot and also I am a fresher so I give lot of time on self learning. I'm a computer science graduate so for me to show this society that I'm not unemployed and actually doing something I need to leave my damn home or have a company under my LinkedIn profile or I'll get no girl to marry me lol.

I taught this to my brother and friends so they are making money off ew and I just exchange their money for little commission (That's my fucking royalty lol).

kookur - November 15, 2022, 11:33 am

When I get some time apart from my job, it's from free traffic so not many big payments.
