Thread: [OSRS Botting - Suggestions, Tips, Breaks.](#)

Jackets - November 14, 2022, 1:36 pm

What do you guys recommend for clients?

I have an account registered with Powbot which I have been using to train up individual accounts 1 at a time as the ban rates are amazing.

Osbot seems to be decent for farming, any suggestions?

For breaks, I am doing (6) hours of botting, breaking for 5-10 minutes every half hour.

Any suggestions on scripts to get?

Is dreambot better then Osbot?

Nate - November 14, 2022, 11:14 pm

I'm looking into getting into some hitting, wat program do you reccomend starting out on

Cryptochadpupper - November 15, 2022, 2:04 am

Please be very careful, good luck finding

Starting out, dreambot/osbot is perfect.

If you're interested in investing I'd suggest waiting for Powbot to accept more registrations.

How much are you projecting it cost?

Any scripts you reccomend, looking to bot some combat stats so i doht have to waste time lol

Is this for a main account?

I'd never suggest botting a main!

Cool I'll check it out when I get off work tomorrow, is it easy to set up and use?

Do I have to install my own scripts or does it come preloaded in the clients

there is a script repository!

From my experience, desktop clients are getting hit by ban waves regularly at the moment. It would be best if you switched to a mobile client like powbot/OSMB if you want the account to last

From my experience lately powbot is quite unstable since they are still optimizing for the new client, but that might just be specific scripts I tried out. I'm running 24/7 with OSMB, though.
