Thread: [Email Inbox Delivery | Payloads Delivery | Crypto and Bytes as Payment.](#)

Roberto Carlos - November 15, 2022, 2:47 am

Good day guys, I'm here to offer delivery service for email campaign in regard to my other service i'm running on the forum.

I will make sure i hit 80-85 percent of your leads landing inbox. And i will deliver your payloads through emails for sure, meaning you get fresh loads into your exploit kits or panel. This will majorly be done with the Microsoft Doc (macros). Where by the victim won't suspect the file as malware.

If am sending your payload for you, all you need to come with is your directling to your payload and your leads, Just sit down and watch the magic and get result. And if you want me to get high quality leads for you and do all setup i mean to recommend you a good RAT then you are welcome as well.

100% use HF Contracts when dealing with this member. Even better to add a Middleman. Use severe caution.

Roberto Carlos - November 15, 2022, 11:57 am

Thanks I added in the terms and conditions all deals will be done will be done using the HF contract,I know a new around here.
