Bought Youtube Premium a while ago and it works like a charm. Seller is very friendly, I highly recommend.

This is more trouble than its worth,bought 2 accounts,youtube premium and quboz,after paying £5 to transfer my tidal play lists over to his quboz account, it stopped working after I only used it once,the guy takes far to long to answer bck if there is a problem,usally 1-2 days,now I guess if he sends me another quboz account il have lost my play lists that I paid to transfer over as it will probably be a diffrent account meaning il need a vpn to create another quboz email,been a few days now and still not received another working quboz account after reaching out
