This all looks ridiculous to me.

Why would I buy an 'eWhoring phone' when I can just buy the app for live snaps? Your so called eWhoring phone doesn't have any useful features that are not available for much lower price than what you're probably taking for them

EDIT: The only useful features I'm yet to see is to fake live video call on Snapchat. That would be gucci

Well if you look at prices from a Snapchat provider like Snapbytes you pay 70\$ for an unlimited while with our Phone you will be able to use it on any App needed not only Snapchat + do calls + If [BRAND NAME REMOVED] or any Dating app ever requires selfie verification you can pass that as well.

+ You can use the phone for other purposes as well which I won't go into detail about here due to rules.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Its not an app and Physical is also big security because everything needed and made by us will be locked on the phone and not accessable.

And everything for setup and needed is chinese only so bad for sale to EU/NA Market
