Oof good question. Lots of pokemon now (we are over 1,000). When I think of a good answer OP I'll let you know.

I haven't kept up with pokemon for years. I heard there's a ton of new ones. ?
Lots of new pokemon in these new games. Over 1k of them now! I think just about everything has been released / leaked so a quick google search will let you look at all of them.

Charizard is my all-time favorite. Always loved me a good fire Pokemon.

I'd have a vulpix or a ninetails as a pet though.
