Thread: [Underrated metal bands?](#)

pms - November 22, 2022, 8:48 am

I personally think Infernal Majesty is the most underrated metal band out there. They are pure geniuses imo. Who do you think is underrated?

Without a doubt they are underrated.

I know Veil of Maya is a popular metal band, but I still feel they're underrated, especially Marc Okubo their lead guitarist. The guy is a total machine. I think they're better than Periphery by a long shot too but that's just me.
