Thread: [Twitch Plays Runescape](#)

I--I - November 26, 2022, 9:05 pm

I took some time to make a twitch bot that can play runescape with chat commands. Come join the hell

<https://www.twitch.tv/twitchweplays>

suggestions for commands are welcomed.

!login - logs in (must be on username/password login window)

!m [x pos, y pos, click type] - Move mouse and optional click

!lc - left click

!rc - right click

!o [#] - left click an option on the right click window

!run - toggles run

!prayer - toggles prayer

!c[left, right, up, down, in, out] - Moves the camera

!i [1-28] - clicks an inventory item

!drop [1-28] - drops inventory item

!s - send spacebar

!north - Set camera to north

!n - sends numbers

!ge - look up item in GE

!inv - opens inventory

Progression

InspectorGadget - December 4, 2022, 8:35 pm

Im currently watching a collective group play runescape and levelling defence via a twitch bot at 4:30AM.... wtf am I doing with my life....

shhh, you're right where you're supposed to be. [^^]

Sholi - December 5, 2022, 2:15 am

Holy **** sh**

This is some next-level stuff. I don't know if I am overreacting or not but this is hella creative. I can see this popping off in the RS/OSRS community. Not sure how Jamflex views it considering they are bums when it comes to account-sharing/macroing/third-party stuff. Love to see that there is progress made on the account and people are engaging. How does it work when everybody is trying to control it or troll?

BiNBo - December 5, 2022, 7:54 am

Absolutely awesome concept and really cool execution! I've seen some twitch plays before, but it's amazing at how well this one works! Definitely wouldn't add any trading commands in lol I could see that becoming an issue fast.

Nate - December 5, 2022, 9:30 am

Would this be considered botting in RS tos?

warpje - December 5, 2022, 11:27 am

I love this concept!

I do think Jagex won't agree as they are banning those session sharers as well.

Still a good job on this

MightyOne - December 6, 2022, 1:48 am

Lmfao this is fucking insane! such great job Brackets!

Will it be a banable offense though? kind of like macroing or botting? or account sharing?

Shrooms - December 6, 2022, 11:51 pm

This is a pretty cool idea, would love to see it in action

Moruq - December 8, 2022, 11:26 am

Left a QL for this awesome idea man, never saw anything like this before lmao!

snipesta1999 - December 9, 2022, 5:02 am

thank you will see you there!

neightworks. - December 9, 2022, 6:09 am

pretty awesome but I wonder if you'll get banned for it

MonstersAreReal - January 14, 2023, 3:38 pm

Had some time to participate in your stream, and it was rather amusing trying to do quests whilst

using movement based off x/y. Really good idea and am glad you implemented it into reality!

cheapstore - January 17, 2023, 10:12 am

I just watched the last stream, it looks really fun. Great idea!

Reason - April 24, 2023, 4:23 pm

!stats to see the stats of the character

Yani - April 24, 2023, 4:30 pm

I once completed sheep shearer on one of these bots.

Suggestions:

- update !m to also use "left", "right" as mouse clicks
- add !click as an alternative to !lc
- add !stats
- !quest works but !quests does not and is also nowhere written (add both and mention it somewhere)

Yani - April 25, 2023, 5:18 pm

Lol I broke it. My bad! Send you a PM with the details.

Godlike - April 25, 2023, 8:07 pm

Warms my heart to see that people are still playing Runescape

You should check out about ChatGPT AI Bots conversating with people. It's honestly crazy how humanized it feels lol.

Costanza - April 26, 2023, 6:08 pm

This is sick man , I have stopped by and watching . imagine how chaotic it would be with thousands of people

Pretty sure that soon, devs of games are going to do this to up their player count. That's what happened for Minecraft servers when java Multibot was a thing.

Klonopin - April 26, 2023, 9:38 pm

this is very impressive work, i love it.

checked into the stream and saw someone complete a quest very very funny.

I-I - December 17, 2023, 11:32 pm

So if anyone is wondering the account did get banned, right after I spent \$100 for a year of membership.

I honestly think it happened because of the .dropall command I implemented. Shouldn't have ever allowed that in hindsight.

Might be possibly bringing this back on a F2P account. Not sure yet but will update in the next month or so <3 [^^]_ /

That's awesome that they noticed you. I think some people are selling membership pins cheap still. If they are, I'd be willing to donate to you making a new account.

isn't that over and done with? Jagex stopped allowing membership codes a few years ago iirc because everyone was just buying them from Brazil for cheap.

They did get rid of it a while back but I think they brought it back. I've seen some threads regarding it.

Sad that someone reported it... I wouldn't even consider it a bot tbh

From a technical and principal perspective I get it I suppose, but like cmon. There is a huge and obvious difference between something like the twitch plays bot versus your usual bots just doing the same task over and over for the sake of leveling, making gold, etc, and that will likely in some way or form be used for RMT purposes. Definitely kinda lame to see happen. Was fun while it lasted though.
