(Apr 26, 2023 01:38 PM)Vip?r Wrote: [\[CITE\]](#) Cheapest price on HF. A bit slow to deal with tho.

Sadly the only payment options available were Revolut or Crypto.

Revolut was a bitch to deal with. I had to go through Google Pay.

For anyone planning to pay with Revolut, note that their top-up fee is expensive. I had to pay \$23 for \$20. If you go through Google Pay first, make sure to add \$23, or else you'll have to add another \$10 since that's the minimum required amount for Google Pay.

Thanks for your honest review and purchase! Hopefully when we get Paypal & Cashapp back up we can be smooth & fast again ?

Yeah if you would like this service we still offer it, but it has kicks due to family plan. The spotify yearly personal email upgrade is much better and a no kicks plan.

Lifetime = every 1-6 months you might get re-added into a new family plan (re-add is a kick)

Yearly = personal upgrade from spotify no kicks.

? I delivered the upgrade, it was not 2 hours and it went off. Also Spotify Lifetime is family plan invites and it is told in description has kicks, but you get re-added for lifetime of the method.

I messaged you I was going to re-do it, today I did that with a new system because Spotify had pushed an update. You changed the password of the account and my bot said it was invalid. I am literally waiting for you to deliver your upgrade. Please do not bash me when I always deliver. ?

Been waiting since Jan 9th when I sent funds. Requested a refund today since I feel I've been quite patient and understanding but 3 weeks is too much. I anticipated delivery within 24 hours.

It took 15 days for you to even tell me instructions of what I need to do, and I don't want to wait 2 days between each back and forth given our 16 hour time difference. I feel as though I'm being strung along and I don't appreciate being treated like that.

I will update this when I hear a reply from the seller.

Why are you making a fake reply on my topic? I already replied to you, you are not "waiting for a reply from the seller". Your order was delivered, (before netflix bot) and revoked. Requested 3 things from you, you just sent them last night, I finished orders that were AVAILABLE. You sent late, today is the wedding. You will be assisted tomorrow, maybe if you read the group chat or even above you would see the order completions for the same service and oh the warnings I am busy ALL money of JANUARY. You didn't have to order, I told everyone multiple times I AM FREE FROM AFTER 1/27. Stop this bullshit seller is missing, when in both chats orders were being completed until TODAY which is wedding day.

Moe I'm so confused why you would respond like this? This is not what happened and I'm happy to share all chat logs. My order was never delivered and on January 25th was the first time you mentioned the initial method being revoked — a full 14 days after I sent funds January 9th. So far your only fault is you've been slow, but this is nonsense.

You have this habit of giving wrong timelines

If you had just said it'd take 3 weeks that'd be way better than the many "okay just a few minutes and it'll be done" that I received.

I think it's best if we finish up this conversation over Telegram and once this is resolved I can update these messages.

I believe you have been contacted now, I am officially back from the honeymoon. After getting married on January 27, I had given update in telegram group (closing orders, closing support chat until I return Jan 31) but I ended up returning yesterday Feb 1. I am officially back and catching up on every order.

That is because PayPal is down currently, I will remove it from website. CC options use crypto currently, not Stripe (due to people carding/chargebacking) so if your country can't use card -> crypto it won't work.

I accept ALL crypto, Zelle, and coming back soon is Cashapp/Wise/Revolut/PayPal. The website error is because I use the platform "Billgang", I will be moving platforms soon.

The telegram group was closed the past 2 weeks while I was at the embassy. The group chat is for support/sales, when it is closed I do not handle orders. As soon as I came back (which was a few days ago) I tried to deliver your order, you refused. Refund, you refused because I was busy? You are literally denying both the server boosts and a refund if you do not want the order. At this point I am sure you are just trashing sales. I am able to provide both and you are saying things that did not happen. I have never been missing for 2 months or not provided service for anyone for that long. MAX a few days wait.

I take my business serious, so I do not understand why you would say this nonsense.

DivinePurpose - July 18, 2025, 9:34 am

When I originally purchased the 12M Netflix upgrade, my account was quickly done within a day. However, there was an issue with the payment on my Netflix account resulting in my account being put on hold and nothing actually working, that charge ended up getting refunded back to OP (likely a regional issue of some sort). This was on 13th June.

After which, he asked for another email where a new account could be set up. I provided an email address on 15th June, which didn't work. Noting that OP was at the embassy and wasn't able to reply, he did get back to me on 30th June asking for a new email as the ones prior didn't work. I provided a gmail email that's never been used with Netflix before.

I've sent chasers asking for progress every 2-3 days since and the only reply I've gotten was on 8th July that he was handling it for me "soon today". That's the last time I heard from him, while my latest chaser is from today.

Currently, the Telegram group is closed again, and has been for a couple of weeks but no idea why.

It would be nice to receive some kind of update.

I will message your personal telegram shortly right now, thanks for letting me know. You most likely messaged me last month not recently, when I was busy. I usually get 100 orders+ a month, when I am busy this gets backed up and fixes usually are first but sometimes I help new orders first when I am busy as I don't like anyone to feel not assisted. Hey my apologies, I am switching platforms for payment processors at the moment.

Hoodpay which provides those multiple payment options uses something called RAMP which is the one with the annoying KYC etc as it buys crypto to pay me out.

This will be all gone soon, currently Zelle + Crypto best payment options. Soon will have Paypal/Cashapp/Card options on new website.

First of all, why are you making false claims? I had a temporary inactivity due to irl reasons and if you were in the advertised telegram group for updates you would have seen this. Also I replied to everyone from emails, discord, telegram and now Hackforums. It was over 200 messages, and as far as orders there is only a small list left and they are being handled as we speak.

The website will have edits made to remove the instant delivery, as if you read the FAQ it states it can take longer to receive an upgrade.

It is 2026, upgrade scene has changed since the past. Some things take longer than others to get processed now, and all the companies have upgraded their security & fraud systems. So to make sure you do not get something that will be revoked, we take precautions. I am trying my best, as most know last month Spotify revoked subs for all vendors. Got that handled but it took sometime as it was orders that stemmed back 6 months. Now Youtube is starting to do the same and being handled, was handling my old customers and this caused a back up delay. But I am one of the few vendors here that actually lives up to their warranty and pays out of pocket and makes sure at end of the day every customer is good & always provide extra service if any issues.

False claims? You advertise autobuy, then your email claims details will be delivered within 24 hours. 8 days later, no contact, and you've only just replied today. Regardless of your IRL situation, it's no excuse. No getting out of this one bud.

No one is trying to get out of anything "bud"?

I have clearly explained I was not available and have handed out refunds to those who have requested, and completed orders for those who also requested. You literally can just accept the refund and stop making it seem like I am trying to run. I am a shop, not some guy whos holding your money.

Natha - May 21, 2026, 6:42 pm

Quick update - [MOE](#) has refunded me in full, so that's all sorted now.

Apologies for overreacting. It's just one of those situations where your mind jumps to the worst-case scenario when a product hasn't been delivered after a long time and there's no communication or anyone online to resolve it.

Hopefully I'll find the confidence to try your products again in the future as my business depends on Adobe software, and I genuinely hope your IRL situation is sorted.

Cheers

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
