Thread: [Developer needed. Gather and display data from API + admin panel](#)

Captain Morgan - December 6, 2022, 6:56 am

Hi,

I am looking for a developer with time to work on a project for me.

It involves gathering and displaying data from open API sources, and managing it all from an admin panel.

I am mainly interested in a partner, but if it's a paid one-time thing, then I'm also fine with that.

Budget is around 200\$, paid in crypto.

Write below or PM me if you are interested and want to hear more about it.

/Morgan

Sent you a PM sir, would like to discuss further details about this

XERO - December 9, 2022, 7:36 am

I replied you into PM and you never got back to me.

If you still looking for someone, let me know :)

Sierra-117 - December 9, 2022, 1:41 pm

I literally do this for a living. I can partner on a recurring payment schedule. I prefer Venmo or PayPal. Let me know if interested. See my thread linked in signature for more info.
