Thread: [Selling STACKED Valorant and League account \[radiant + challenger\]\[riot buddy + vct\]](#)

**Yelim** - December 6, 2022, 10:15 am

Hi,

I will be moving out of the country in January for one or two years. I am not bringing my PC with me so I have decided to sell my main riot account.

My account has MANY skins on League of Legends and Valorant.

I have peaked Challenger in League of Legends and peaked Radiant in Valorant.

I also have the Riot buddy and VCT Game Changer title on Valorant.

Because of my Riot buddy and the VCT Game Changer title, I will not post screenshots here but if you are interested in any screenshots, I will gladly send them to you.

BTC only. Not going first unless we can make the transaction on g2g. Not sure what I am asking for yet. But if interested, you can look up the prices of challenger and radiant accounts with the riot buddy on g2g or make your own offer. I have never seen anyone sell an account with the VCT Game Changer title, so I'm not sure on the price for this but it's very exclusive since you must play in a verified VCT tournament that is an all-women's league.

Thanks!

Any price in mind for this account? Sounds like something I'd be interested in, though it's likely out of my budget, haha.
