Is this the method where you purchase as if you live in a foreign country where discord is much cheaper?

Our method does involve something like this correct. However we have made complete steps to make it VERY easy to pay with your OWN currency. Does not require a VIRTUAL CREDIT CARD like that method to buy from a foreign country where it is much cheaper. You can use your own card

in your OWN currency! ?

Do we need to have access (password) of the account we want to upgrade? Do we need to log in to that account?

Yeah but it only takes a few minutes to process your customer, Nitro gifting is not available (as it is priced higher).

Thanks! It involves using turkish currency, but it is not the public method that requires a turkish VCC.

Moruq - December 21, 2022, 1:11 pm

Hey, so it's localized pricing? If yes, it's just the public method everyone knows about. You might found a way to purchase it with localized pricing without having a Turkish VCC. Right?

GLWS.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
