Hey I'd love an account!

Just out of curiosity, are these accounts hacked or premiumed using some of the marketplace methods? and are there more accounts you are giving or just one?

Thanks!

Just got my account, this seems to be an "Microsoft 365 E5 Developer" under some organization.

Overall seems to be working fine with the credentials and has the option to change pass.
File sharing and office 365 is working regulary :)

Thanks for the account bellik!

My only concern is I wonder how long will these stay active as its clearly an account under some domain

9/10
