Thread: [\[EASY\] \\$25 off any hotel booking - Easily refer others to earn \\$100s off!](#)

Hey everyone, there is a popular a mobile application for booking hotels, flights etc and they currently have a referral program going on where you get \$25 for every time someone signs up on your link and inputs your code. The best part about this isn't that you can easily get \$25 just by signing up on my link, but that when you refer someone and they sign up, you instantly get \$25 added to your account! The person you refer does not even have to make a purchase or add anything other than their phone number! This opens up the opportunity to easily refer family and friends, each successful signup netting you \$25 off.

I did my immediate family and within 20 minutes I booked a \$400 hotel for FREE. AND, they each get \$25 to use on their next booking, which is a pretty good deal if you ask me. I didn't think this would work, but now that I know it does I would like to share it with you guys. All I ask is you sign up using my code to get your first \$25 off coupon, and then from there you can refer however many people you like, as long as you don't pass 200 people. Make sure to jump on this ASAP because I'm not sure how long it will last.

Please post below or DM me and I will message you instructions and my link to download the app!

I was able to do a couple multiples with Google voice. A few times it didn't even ask me for phone number lol but mostly it did. I will send you the link to try other sites if you'd like!

This would be perfect for me. My mom got out of the hospital recently and she's been messed up for years (dementia and ataxia with drinking on her prescription Xanax and gets nasty)

We lost the house, have few months left at this 1 bed rm apt and we're broke - I got in an accident and messed up my back (I5 S1 herniated discs and pinched nerves) ive got caretakers burnout and she's so dependant on me since she got ill and dad left.. got no other help, no family helping etc. It's all mentally exhausting and I'm overwhelmed and I never get time with my fiancé, or our own peaceful time with space. I had a mental break the other day, was thinking of getting a hotel for tonight as I am gonna lose it if I just don't have at least one good day. This would be perfect, if you could pm me it. Thanks in advance

Tldr moms sick and I'm her caretaker she's mentally abusive and has dementia and is just crazy,

need to get away so this would be great ?
