Still selling GP. I sell mainly ONLY bulk. I don't really want to waste time logging in for smaller amounts. 0.28/M lowest on HF.

I ended up selling ~20B yesterday on another website at 0.25.

I'm sure I have the best rates on HF since I'm not a gp re-seller since I make all my GP in game. So currently out of stock since I'm at work. I'll likely have 1-3b to sell tonight.

Post here or convo me I'm trying to be more active on HF again these days.

Currently selling at 0.28/M

I don't do small amounts I'm sorry. Min order 1B. Lowest rates on HF!

I see other threads 0.30 and 0.32.

Mines 4 cents cheaper per mil. On 1B that's a difference of \$40! Hit me up!
