Introduction:

Hello everyone!

Recently I stumbled upon this great way to make side income online without putting in a lot of effort & I actually was very surprised how easy it was when I actually earned 1st time with this like couple of weeks ago. And considering the fact that there is no way this will get saturated even if thousands of people do this & I don't see this stopping in recent future, I have decided to sell this.

I am going to keep the thread clean with only important information. No fancy shenanigans & long confusing thread designs with loads of graphics.

Features:

Whitehat (Maybe little grayhat. If you are concerned about this, PM me for more info)

Works Worldwide.

Small & easy Setup probably takes 15-20 minutes.

Takes just minutes for each run/cycle once setup correctly & earn

Investment is completely safe & in your hands all the time.

No special skills/creativity required. Earning does not depend upon how creative you are / research

you do / any special skills.

No CPA / Ewhoring / affiliate marketing / SMM / Gambling / Dropshipping / HYIP / Ponzi / Scamming / Talking with people etc.

Refund guarantee (See TOS)

Requirements:

Computer/Mobile with Internet (for setup, computer is recommended for easier process)

Investment (You can start with as low as 100\$ but recommended is at least 200\$)

Important Info:

Not a daily money printing machine.

There are earning cycles. You can not perform this daily.

Currently earning cycle is once a week/2 weeks.

Next update will contain a variation of this method which can increase number of cycles by using manual work.

Earning is directly proportional to how much you invest. But it is very safe as the investment is in your hands only all the time and you can take it out at any time you want.

TOS:

All purchases must be done using HF Contracts.

No leaking/sharing/reselling. Every copy is fingerprinted with buyer's info.

You agree you have read all thread and all info related to this method and understand it. If you have any doubts, please contact me before buying.

All sales are final. Refund is only offered if you fail to make any money within 2 months of purchase & you have attempted the method in all the cycles within those months. You need to send me your investment & cycle details for every cycle. If you do not earn anything in all the attempted cycles, I will refund only the amount you purchased this guide with.

You understand it requires investment to run this method & you have it already. No refunds if you do not have funds to invest.

No sales trashing will be tolerated. All the post sales enquiries should come to me in PM/convo first. You are welcome to write review without leaking any specific information but sales trashing will not be tolerated & you might be removed from support & refund guarantee if you do so.

I am not claiming this is something super private/unique. All you need to understand is this works. And that is all what is needed.

Official Marketplace Upgrade Partners (OMUP) Terms:

By purchasing qualified products/services from me using an HF Contract I will rebate you 2500 Bytes as part of the OMUP program. Those Bytes should be used to buy a 60-day L33t membership upgrade on HF.

If after 30 days you have not spent the Bytes HF on an upgrade HF may refund them to me.

This is only applicable for all the non-upgraded members who purchase this product.

Method - I believe this method has a great potential to earn. I've seen first hand this method work, many times.

It's somewhere in the realm between white and gray hat, depends on your morals really.
It doesn't take much investment, but obviously the more you put in the more you get out of it.

I didn't get to do the execution since I had to be somewhere but I'll be ready to jump in when the next execution opportunity comes in 1-2 weeks

(Dec 29, 2022 01:17 PM)frostygh0st Wrote: [\[CITE\]](#) Bought this yesterday so I'll give my review.

The Method: this will work till the day we all die. It's just a part of the financial world, it's always been there and it always will. However, the guide makes it EXTREMELY easy to do. The only downside is the wait times between each cycle, but that's not something OP can control. He's just here to get us as well prepared for when the next cycle does come, and he does that extremely well.

The guide itself it very well written. To the point, no stupid side story. Just says what needs to be said, posts the relevant screenshots and gives us the URLs we need.

OP answered all the questions I had and sent the guide fast after I paid. Well worth the money paid. If you've the right investment money (approx \$200) you'll make your money back on this within 1 cycle. The rest after that is profit.

(Dec 13, 2022 03:09 PM)?ord Frieza Wrote: [\[CITE\]](#) Can you guy post payout proof?

To be honest, whatever I have made with this, I reinvest in the guide back for more profit in next cycle. But as said before, the investment along with the profit is like having it in another wallet. You can withdraw it any time.

I can probably withdraw and resend it just to get a screenshot of wallet txs. That would just cause me to spend unnecessary fees. Or I can show a crypto transaction coming into my wallet as proof but there's no real point as how can you tie a payment to the method. I hope this makes sense :D

I would advise everyone to rely on the reviews and information given on thread for credibility. You can always PM me for more information.

Also, the guide comes with images, GIFs & Videos of this method being performed which shows live profit as well.

Hi, I have some questions.

I apologize if some of my questions have already been answered:

1. What are the payout options?
2. How often is the payout?
3. Are we getting payout from people or company?
4. How much is the investment required?
5. How much time is needed for the setup?
6. Is it possible to get saturated?
7. Is it scalable?
8. Is it possible to automate?
9. What device is needed to make this up and running?
10. How much daily maintenance time is needed per day?
11. Are we exploiting a website?
12. Did you discover it yourself?
13. How long have you been using it?
14. How much have you earned so far?
15. Does it work worldwide?
16. Is it blackhat or whitehat?

I'm interested in this...

How much could I earn with a \$300 investment?

Is there a risk of losing my entire investment if things aren't going as planned while executing the method?

Is it the same amount of profit for every cycle or can it vary by much?

Maybe you could send me a couple more information about the method what it involves, why is it greyhat etc.?

Would be very much appreciated!

I have decided to keep the price same for 1 more day as it seems people would have been busy on Christmas Eve.

Grab it today!

\$49.99

So with a \$200 investment, you can make back roughly \$40-50 every 1/2 weeks?

Is this method about Crypto trading or staking or mining?

StuffSneak - December 28, 2022, 7:03 pm

I have answered all queries in PM.

Due to low activity (holiday season) I have decided to extend current offer (\$49.99) till New years (2/3 January 2023).

Grab it while you can.

frostygh0st - December 29, 2022, 12:17 pm

Bought this yesterday so I'll give my review.

The Method: this will work till the day we all die. It's just a part of the financial world, it's always been there and it always will. However, the guide makes it EXTREMELY easy to do. The only downside is the wait times between each cycle, but that's not something OP can control. He's just here to get us as well prepared for when the next cycle does come, and he does that extremely well.

The guide itself it very well written. To the point, no stupid side story. Just says what needs to be said, posts the relevant screenshots and gives us the URLs we need.

OP answered all the questions I had and sent the guide fast after I paid. Well worth the money paid. If you've the right investment money (approx \$200) you'll make your money back on this within 1 cycle. The rest after that is profit.

Hi,

When you say : "Earning is directly proportional to how much you invest. But it is very safe as the investment is in your hands only all the time and you can take it out at any time you want." ...

By that you mean that you can double your investment? like invest \$1000 in one cycle, and get \$2000 back?

And If I don't earn a profit, then I still get my \$1000 back ?
If so, how long till payout?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Would you please drop me a message what's the main area of this method...is it staking, farming,

ico or something because one reply said "It's just a part of the financial world, it's always been there and it always will." it's confusing.

How much profit do you make personally and whats the current height and of your investment per cycle?

Also please explain me the greyhat part of this method, that would be great. Do we use an exploit of a service or something similar?

Is it something about micro credits/loans?

Just 2 last questions. Is setup once or once per cycle?
Is investment/profit limited per Cycle?

It depends on everyone and the work was really less than 10 minutes. Also it doesn't depend on you so it's not something you can repeat every other day, the more you invest when you can I'd say the better. I would recomend between \$300-400 is good, but start with \$200 also is ok. If you have questions ask the op tho as this is not my method

I recently purchased this beautiful guide. Shoutout StuffSneak, for sharing and thank you for this opportunity. Very detailed guide, easy to understand and set up. It is in-depth with picture and some videos in this guide to help you set up perfectly. Setting up did not take long at all. It was super easy and can be done in 10mins. There is a ton of potential in this, you can for sure make your money back and more. It hard to lose honestly. Of course the more you invest the more you can benefit from it. I definitely recommend it, and trying it out. I can see why it is limited. Don't sleep on this, if you have any questions hit up StuffSneak.

I am not available for around 36 hours from the time of this post. So if you purchase a copy within this time, you will have to wait for me to deliver the same till I am back. But rest assured, I will deliver it as soon as I am back. Anyhow you can always hold your purchase till I am back.

Thank you!

All copies have been delivered and as I am unable to address others and new buyers, I am closing the sales for some time. I will reopen once I get back and have some time to address all queries I have in my inbox and discord.
