[INTRODUCTION]

Hey! My Name Is Fluox, I'm offering a free username lookup, this will be a run of your username through a bunch of different sites and an output of the sites it gets a hit on. It is a simple process and only takes a few minutes!

[HOW TO GET THIS SERVICE]

If you would like a look at the output of your name then shoot a message on the thread down below and i will send you a PM about the service. PLEASE NOTE if you have a simple / common user name then this service is of no use to you, only PM me if you have what you believe to be a custom / unique username that you use across sites.

[DISCLOSURE]

This service isn't a free private investigation thread, it is a username lookup, therefore i will not be going through the usernames that the software outputs i will simply just be giving you the output, this will be any website that username is used on; some of these accounts may not be yours and I'm sorry about that but i hope this service can help you.

[NOTE]

If for some reason i take some time to get in contact with you please do not spam message me, it will not speed things up i simply offer this service in my free time.
