General Recruitment Application

Why do you want to join COINED? : I invest on an annual basis with high venture entity capitalists. Balancing communication is essential to greater purposes.

Will you participate in group projects? : Yes I have free will and my own time to spend along with the group(:

What do you bring to the table? : Support, great speed, experience, completionist

Are you active on HF? : Yes, I am active on HF. I can access HF in more than one way.

SMMFlare - December 19, 2022, 4:29 am

General Recruitment

Why do you want to join COINED? : I'm looking for an active community here which I can represent and contribute to in whatever way I possibly can. Would love to learn a thing or two, as well as provide knowledge in things I'm proficient in. Also would like to have some members I can have a laugh with!

Will you participate in group projects? : Yes, I'm very entrepreneur minded so am always interested in creating new things.

What do you bring to the table? : I'm a Cyber Security student, so have a pretty decent knowledge in all things related to that field. I also have created various sites, communities, servers etc in my

time on the internet so have a pretty well-rounded skill-set. Aside from hard-skills, I'm an active member and would keep things related to the group the same way!

Are you active on HF? : Yes, I would consider myself pretty active. I run my own SMM service (if you couldn't tell) -- and normally always have a tab open here at the same time.

Fortunate - December 19, 2022, 5:14 am

I'd love to apply to the both GFX and the development sector.

Why do you want to join COINED? : Looking for a place to talk, have fun, and share knowledge.

What experience do you have? : Over 5+ years of experience in sound design, photo- and video editing, and graphic design. I just have a year or two of development history, although I've been involved with front-end projects quite a lot. My coding skills are a novice, but I understand the space and want to develop my skills.

Do you have work examples? : I don't have a public development portfolio yet. Most of my projects have been simple. I just recently developed my first Full Stack application. When it comes to GFX I've done a lot of work just at HF, this includes userbars, dividers, subforum icons, Freagle Hackuman, animated avatars, and signatures for members.

Are you active on HF? : Yes.

Gaming Sector

Why do you want to join COINED? : I have only experienced being in one group and a crew, I thoroughly enjoyed having a smaller group of like minded individuals to interact with on a daily basis, I've selected the gaming sector as I do not have much coding experience nor something extremely substantial to offer to the group. However I have been gaming since I was about 4 years old, I'm always up to date on games in general and would like to say I'm rather skilled especially in fps games. If you've seen any of my threads I always find things to supply people to do with gaming whether its cheap DLC's , virtual items, addons, redeemable codes etc at much cheaper prices than the majority of markets, so I would always be able to bring cheap solutions to people :p and who doesn't like saving a few extra bucks?

What Platform do you play on? : Mainly PC, looking to grab a new xbox soon however.

What Region do you play on? : EU/UK but typically most games allow me to play with US players as the ping difference is never usually over 150ms roughly.

What games do you play? : Absolutely anything FPS and adventure, MWII, CSGO, Rust, R6s, Halo, DayZ, Minecraft, TF2, OW2, you name it.

Are you Active on HF? : Yes, I am on the forum daily numerous times a day, I don't typically have a high PPD but I prefer to keep my posts to a high standard rather than posting everywhere I can.

Extra: Despite briefly touching on the fact I do not have development or GFX skills, I would love to learn from any of the experienced members within, I typically have more time for GFX work but would love to take a shot at anything I could be pointed towards. I've always been someone that loves to learn and am able to take constructive criticism; turning it into something great.

Why do you want to join COINED? :

Coined looks like a very good group that fits in my interests.

Currently I'm checking out day trading a lot, especially with a partner of mine since he has A LOT of experience with it.

It looks really fun but I gotta be honest, it isn't easy. Although I believe the grind will be worth it.

Also, I like to grow my crypto portfolio more and more!

Crypto & NFT's definitely fall in my interests so I think Coined will fit with me perfectly.

Will you participate in group projects? :

Yes! Forsure.

Group projects are a fun thing to do. I always love to participate.

If it's a giveaway, or just a product/service we all will be working on, I don't mind.

They're really fun so I would definitely spend some time on it.

What do you bring to the table? :

I'm really active so we could always have some fun conversations + like I've stated below, I'm pretty active on HackForums.

Apart of that, I'm currently really into Malware Development/Malware Researching, Hacking and SEO/Marketing.

I could always help people out who struggle with beginning on that field incase there are some :-)

In general, I think I'll bring a pretty positive vibe to the group.

Are you active on HF? :

Yes! I am forsure.

Currently trying to post as much HQ posts to keep up with my activity & I also got a sales thread online.

That's my recruitment. Thank you for reading!

Happy holidays to everyone reading this <3

Why do you want to join COINED?: I have a passion for NFT's in almost all eco-systems and I am incredibly familiar with the inner workings of NFT communities and the tech behind them. I am interested in joining COINED to network with likeminded individuals.

What experience do you have?: I have been trading NFT's for over a year now, crypto since 2016, I am a computer science student studying in college, however a majority of my time is spent learning Solidity, Rust, and Move.

Do you have NFT or ICO experience?: I have indepth NFT experience, with pre-sale, project management, scouting project investments, seed rounds for nft tokens.

Are you active on HF?: I am decently active in the crypto section, I do not use the marketplace on a regular occasion.

General Recruitment

Q: Why do you want to join COINED? :

A: I'm involved on the crypto space for more than 5 years both for fun and professionally as a developer. I have developed some projects which are daily used by people, like a cryptocurrency, a DeFi exchange, a swap service (native coin<>token) and many more.

COINED seems like a nice group in which i can meet more people that love crypto as much as I do, and probably work on new things together.

Q: Will you participate in group projects? :

A: I love working on things, when I start doing something I'm so passionate about it. So, yes.

Q: What do you bring to the table? :

A: I can offer help developing projects, new ideas, possibly expand our network with the links i got.

Q: Are you active on HF? :

A: I was some years ago, but now I logged in again and the nostalgia hit me. I would love to be active again, and of course joining COINED will be a motive.

akhi - January 3, 2023, 5:17 pm

Crypto Sector

Why do you want to join COINED? : I guess I should start this off with a good evening. I bought my first Bitcoin in 2014. I bought two actually, from a kid at my school. He gave me a USB flash drive for a really low price. I think I gave him \$250 cash, but he may know or remember better than me.

While I was seemingly up to date, I missed a lot of opportunities, because with Bitcoin knowledge, I gained darkweb and blackhat knowledge, which seemed to replace the white hat opportunities for me. I spent a few years buying and selling. I have seen the world change drastically since, and I am hoping to erase the mindset further that Bitcoin is "just an anonymous currency" that I developed at this age, and learn the true beauty of crypto. I mean, even my old man is up to date on the new coins releasing. I lost interest in crypto when I stopped buying and selling BTC, as by then mining was "improbably expensive" and "a waste of time" and other coins were just "Bitcoin wannabe's" and meme's.

I did like NFTs for awhile, and bought my first one on the Ethereum market. I, of course, had hopes of scoring an Ultra-Rare addition of the AngryPitBullClub's drop, but assumed that if I didn't I would hold my pit regardless because I liked the art. After I realized how rapey the Ethereum transaction fees were, I stopped caring about NFTs as well.

Shortly thereafter, I met some people at work on the Solana network and found out that the owner of BoredApes is actually from the same city. This struck me as a sign, and I bought into a project called BR1 Game. I am still holding some tokens of this project along with some other Solana based tokens.

Solana died shortly after, though, and I may as well just HODL.

I regained interest in crypto after meeting [DashPHP](#) and participating in a pump and dump with his program [AltPump](#). He was very knowledgeable and led me to finding more information about trends which led me to more information here on the site.

I am now somewhat familiar with the terms: halving, DCA, staking, and thanks to Omni, masternodes.

This basically just all came to me in the last week or two. Luckily, there is a crypto simulation here on the site using bytes that allows me to practice without using any real money and making an absolute fool out of myself.

I'm not certain I'll regain interest in NFTs anytime soon, but I'd love for someone to show me I'm wrong. I'd also like to have a deeper understanding of crypto so that all the crypto gurus in my life aren't setting me up for failure by asking me about a couple coins and terms I'm familiar with from 10 years ago, then running into a bunch of new-wave terminology like HODL or SAFU.

What experience do you have? : As far as crypto goes, I bought my first Bitcoin in 2014, as mentioned beforehand, and have been trading off and on since. Normally I spend my BTC as BTC and haven't done too much as far as long-term investing. One time I saw a DNM glitch and double my BTC and I spent them and it worked. The next day my account was negative, but it was too late I had already spent.

I have several NFTs and hope to collaborate with some holders of the BR1 game token now that the beta is released.

Do you have NFT or ICO experience? : I have some NFT experience. I have watched drops, and am familiar with the Solana blockchain and projects related to it. MagicEden.io was a good hub for me. I may be out of the loop some since Solana tanked, but I am willing to relearn completely.

Are you active on HF? : I am here everyday so far, and in the last month have, I'd say, rooted myself as a HQ user, even though I am new.

Why do you want to join COINED? : I have been mining using xmr-stak on gpu rigs for years, ASICs too. Crypto isn't the future. It is the now.

What experience do you have? : I'm a hack and a skiddie. Mostly I am a journalist looking for anonymous sources in the cybersecurity/blockchain/decentralized world

Do you have a portfolio? : I have to keep this anonymous. I have mined xmr, eth, ryo, doge... I have worked very closely with the devs of zec and ryo and can always pull these contacts (anonymously) into any project. They trust me because I pay what they require and I pay on time and I do not haggle. If the price isn't right, I just move on to another contact.

Are you active on HF? : Yes.

reaand - January 5, 2023, 3:49 pm

Hi to all

Crypto Sector

Why do you want to join COINED? : Will be my first group and i want to improve and grow together
What experience do you have? : Im trading and searching ico and project for mid-long term investment

Do you have NFT or ICO experience? : i do i have a 5 project of long term investment and one mid term that already gave me 17x my investment.

Are you active on HF? : Im very active yeah

Gaming Sector

Why do you want to join COINED? : For the same reason of course

What Platform do you play on? : im playing on PC mostly and xbox.

What Region do you play on? : im playing in EU server

What games do you play? : League of legends, GTA, dead by daylight and CS GO

Are you Active on HF? : Yes i do

Thanks if i can join and good luck to all!

Gaming Sector Application

Why do you want to join COINED? : I love HF and although a newer member (Since the summer) I have tried to be as active as possible. I want to join COINED because I love the idea of the gaming sector within a group. I am an avid gamer and always looking for chill people to play with online. I figured as part of a group or community such as COINED it would be easier to have regular contacts in the gaming world. If you want to play a game and I don't have it I'll make sure to get it and start it up. I enjoy playing new games and taking recommendations as well. Not afraid of being the n00b. I would also love to post my own reviews/FAQs/walkthroughs etc. I think I would be a good fit in the group as a gaming partner.

What Platform do you play on? : PC all the way! Running: RTX 3070 / AMD Ryzen 9 12 core / MSI Pro M2-Max MB / 32 GB RAM. / 1GB DL Speed I won't lag you!

What Region do you play on? : Europe currently. Looking at moving back to North America this year.

What games do you play? : COD (Any), Rocket League, Fallout, GTA V, Far Cry 5-6, CIV VI, Valorant, LoL. Currently hyped for GTA 6 & Diablo IV. I was an OG of Diablo II Online. Remember UDIE Too editor? Good old days.

Are you Active on HF? : Yes! I post at least once per day. I try to spend more time posting though nowadays! When I'm not on here I'm usually organizing and adding links to my own sites.

For your consideration!

Cheers,

ND

Why do you want to join COINED?

I am on HF quite a bit daily and I think it would be cool to join a group and interact with some other like-minded individuals. It would be great to get involved a bit more in the community and I think this would be a great way to do so.

What experience do you have?

I am a bit of an all-rounder, I do freelance front-end design and development work currently and have done for many years, but I also have a lot of knowledge in system administration and security.

Do you have work examples?

Spoiler ([Click to View](#))

I do have a lot more work if you wish to see but here is a few recent examples...

Are you active on HF?

I would say I am fairly active, not the most active poster but online a lot reading and researching things, I would like to get to posting more but I am always reachable via HF multiple times per day.

Gary Clark Jr. - January 14, 2023, 8:09 am

Vouch for this group, Komodo is a HQ member.

Dirty - January 15, 2023, 10:53 am

Why do you want to join COINED?

Looking to join a community of like minded individuals to spend some of my time with

What experience do you have?

I'm currently working on decentralized software within the Semiconductor industry, obviously because of this I cannot say a whole lot about my work. But I'm currently also studying fulltime to complete a master's degree in computer science and laying some foundational work to start up a web3 based company. So all together, I'm extremely passionate about technology and have a sky-high work ethic and drive to become the best.

Do you have work examples?

Sadly no, everything I have worked on so far is all under NDA's/stuff I cannot show off.

Are you active on HF?

Somehow amongst everything I do, I find myself browsing the forums a lot recently, partially to find a community like coined, even more why I think I will be a great fit for the group.

Either way thanks for reading my application and hope you have a good day.

Why do you want to join COINED? :

Obvious reasons, it's a bad ass group and has the -10 feature. I've seen some cool people are in the group and want to be cool too :D

Will you participate in group projects? :

I'll participate in as much as I can, not sure the meaning of this question (copy n pasted other peoples posts lol) Just give me some ideas, I can be active in certain sections or chats, and whatever else is going on.

What do you bring to the table? :

My personality :)

I also like to collaborate with others and network online as much as possible.

Are you active on HF? :

Mainly been lurking these past few weeks but when I mess around online I usually have the convo tab on here open, there's always funny stuff to scroll through. So yes and no, I don't mind posting a bit more often if I get in a group, also should be less busy starting sometime next month.

Not much of an application here, but still, I want in :)

Thanks for reading.
