I will be simple.

[BRAND NAME REMOVED]?

Lovoo?

Reddit?

Bumble?

Which one you consider it as the most profitable?

lucky.sparks - December 19, 2022, 7:21 pm

I would say this depends on the scaling possibilities and the setup. One of my friends is pushing 10k/week from twitter alone.

btw, how can I follow specific threads I'm interested on this forum? Cant seem to find an easy option for it.

you can find a small text option saying subscribe to this thread, do that and you will get a notification for each reply. ?

[BRAND NAME REMOVED] if done by the pros of today. Twitter/Reddit for the rest.

My views may be outdated. I haven't eWhored since the days of boxxxy and early early bluestacks. That 2015 money was beautiful.

Yeah nothing beats Twitter. \$10k weeks are not that uncommon.

I wouldnt say nothing beats twitter. With the same amount of resources to produce 10k on twitter, it would be probably be 100k on [BRAND NAME REMOVED].

I've put the same resources into both. \$10k in a week is much easier on Twitter if you know what you're targeting.

[BRAND NAME REMOVED] doesn't have whales at the same rate. It's likely due to demographic earning potential but what do I know.

You seem to be doing some sort of ewhoring.

I do spam CPA offers on a large scale.

We are not the same.

Anyhow great results!

diablospartan - December 23, 2022, 6:25 am

What about twitter ,instagram ,tiktok ?

instagram still is great but started to tighten up security and limits.

twitter is trashy quality traffic but easy to automate and can be easily scaled.

SIM-4427146 - December 23, 2022, 10:06 am

What traffic would you suggest would be good for ewhoring on snapchat/whatsapp with real girls that would bring me hq traffic and not kids that wants free stuff?

[BRAND NAME REMOVED] it's hard but probably through paid other dating sites would it hit something?

Behii2 - December 24, 2022, 5:36 pm

[BRAND NAME REMOVED] is still the best traffic source in my opinion

How do you use bluestacks? I don't understand it. So you need bluestacks for something and then a VPN?

I've only ever used bluestacks for (KIK) .. Even though there is many sites you can spam to get a ton of traffic for KIK purposes BUT some are fakes too trying to scam. I've made some off of legit guys though.. Again back in the day it was AMAZING.. Now days it isn't really worth using. IMO make a SC and spam HASHTAGS on twitter and get guys adding your snap. Get a pic cover the XXX up and ask them to send \$5 - \$10 to your CashApp to remove said image to see the XXX image! If you have 100's or 1,000's of guys on your snap.. It'll be a nice days worth of money.. And the cheaper the better for them.. You'll have more buying at once!

The BlueStacks App Player allows Android applications to run on computers. So you can download pretty much any android app on (Bluestacks)

"BlueStacks is a popular and free emulator for running Android apps on a PC or Mac computer. BlueStacks doesn't look exactly like Android, but it's easy to use and you can install Android apps from the Play Store." <- Google Search! Hope this helps!

[BRAND NAME REMOVED] seems pretty saturated to me. I've been in the [BRAND NAME REMOVED] game since 4 years. I made traffic, sold it and all this stuff. Firstly [BRAND NAME

REMOVED] is getting more cancer over time, when it comes to do your own traffic because nowadays you need verifications and stuff. Yeah for sure there are workarounds for making traffic and I think I've found out a reliable method (testing rn) but smh mostly everyone who adds you, got already scammed one, twice or more. Most people only do cash when trying to meetup, so I switched to bumble now. I'm in ew since a few days, bc I had a long break etc. But bumble gets you easily 20 adds in a few hours and if u know how to scale...
