Thread: [90+ day old Twitter Account w/ Twitter Blue verification \(\\$50?!\)](#)

Exgroyper - December 23, 2022, 10:46 am

I don't care if has any followers really, nor will I pay based on the @ (doesn't matter to me it could be gibberish for all I care). Just want 1 that hasn't been suspended ever (I have at least 50 permabanned accounts for hate speech kek), and is already enrolled with Twitter Blue or was and has blue check.

No legacy check accounts, no OG @ shit. Don't care if was NFT themed, Pakistan themed, or anything in between. Doesn't matter to me. I want to be able to secure it if that is even a thing, like either get the OG email or if you can transfer to an email I want to have it under. Also if you change the number connected I would want to do that.

If \$50 isn't fair just give me offers, i just pulled the number from my ass lol. Also 100% will be using the contact system and a middleman if prices are above \$50 (or not you are reputable here). Will cover fees, and I don't know any middlemen yet but if we can find a random one that would be great, but obviously we can't use your best friend as a MM lol. Thanks!
