Killing an animal isn't okay

Killing an animal for survival is fine

An animal grazing grass, enjoying the sun, feeling wonderful on its own. Why must i Kill it? For my satiating my own taste buds shall I start sucking on its bones and drinking it's blood?

Nah, I like meat, I've been on a carnivore diet, I've tried a vegan diet, felt like shit trying to be vegan, never again.

I have no problem PERSONALLY killing animals for food, just treat them right through the process.

TheMedigator - December 30, 2022, 9:17 am

I've debated going veggie a few times as I don't actually eat a lot of meat anyways.. Sometimes eat a cheeseburger from mcdonalds if thats even real meat LOL

Not a big fan of meat, think its the idea behind it.

There is absolutely no way I will stop eating steaks.

I think it's fine for food. Maybe you dont need to kill ALL animals for food you know.

Smexy - December 30, 2022, 10:56 am

There's too many animals where I live so we need to butcher them for food.

diablospartan - December 30, 2022, 11:18 am

Well i am also agree with that but unfortunately i cannot see myself living a vegan life
