Thread: [Looking for Group and Crew Leaders to test a tool I built for community networking](#)

Ennui - December 31, 2022, 2:55 pm

Hey everyone, I noticed a lot of groups and communities I was part of felt dead and everyone would benefit from the members being more engaged. I built a very lightweight tool to auto-introduce members in a 1:1 format based on similar interests and goals. Lots of value for meeting like-minded members to network with each other and come up with business ideas, learn from one another, etc.

Wondering if any community owners would be willing to test it out and provide some feedback. Happy to provide vouch copies of it.

(Dec 31, 2022 04:36 PM)shatter Wrote: [\[CITE\]](#) lol what did you build a p2p rat?
No it's real shit. It's a service/SaaS tool for member intros.

Sure, that'd be great. Thanks

Happy to screenshare and demo it. Willing to set it up for free, let me know what they say.

Sounds like an interesting concept. I'm interested to see how this plays out. My group isn't quite ready for this yet, but we should be up and running in the next few weeks.
