Thread: [Some good movies about anti war](#)

I've been watching a few films recently about war and the horrors of it. I think everyone should have to watch these films in school as it shows the horrors on all sides of wars.

If you have the time to watch them I would highly recommend it.

[Video: <https://www.youtube.com/watch?v=zjliApN6cfg>] - A Russian film ironically.

- Another german side film (multi part on youtube)

I saw it few months ago. It was a weird film.

You might like Katyn, I thought it was a lot better.
