Thread: [What this logan paul drama](#)

I keep seeing youtubers putting his name in their titles so there is obviously some drama going on, but i dont know exactly what he did since i have a life and didnt follow it

As far as I know he said some offensive stuff about religions. One of them being that you need to see a therapist if you believe in Jesus and that he does NOT need to respect a religion.

On top of that, his Crypto Zoo NFT project which took millions of \$\$\$ from customers has been comin out hard on him.

It's funny because he was instructed to talk bad on Andrew Tate the second he was 'cancelled' on social media so that he doesn't get cancelled, but now ends up getting cancelled, Andrew Tate still prevails.

I thought it was more funny that he shit on the idea of giving Tate a second chance when he basically begged to come back after filming that dead body.

The Pauls have worse drama than Jersey Shore.

I was honestly wondering the same thing. I've lost a lot of respect for Logan. NGL.

reallll sheep to the matrix ??

Basically his crypto zoo project was created by him and his team (that he apparently didn't do research on), basically explained a rug pull and also did a stealth launch, but his friend crypto king sold \$6 mil worth and project was silent after people lost millions of dollars for the year and cofeezilla uploaded a series explaining the whole scam that happened. Now people found how that logan basically lent over his pet mini pig (he didn't realize she would grow to normal pig size) and the pig was basically abandoned in life threatening condition, but lived. So he has a lot of heat on him atm.

loglos - January 11, 2023, 2:45 am

bro tried to scam the living shit out some fools about a year ago with crypto zoo, gave up, someone called him out, now suddenly hes doing it again . done.

OMSPK - January 11, 2023, 5:37 am

Don't really keep up with the Youtube drama anymore but I'm not surprised he's still in it. Its been what, 6 years now?

Cyam - January 11, 2023, 5:57 am

I'm pretty sure it's about Crypto Zoo. Watch Coffeezilla's trilogy about the scam he recently posted and you will be more than informed about current Logan Paul drama. I also suggest you to follow Charlie (moist critical) as he's always talking about new scams/dramas on the internet.

The shitty thing is, Logan Paul will most likely (AGAIN) get away with all the scams he's pulling off which is sad.

bevc - January 11, 2023, 6:11 am

I don't know anything about Logan Paul except a coffeezilla video I saw, where he talked about Logan Paul and some bullshit crypto-game - Coffeezilla seems very credible to me, and as he says, none of this stuff is regulated, it's pretty much the wild west. So I think that's the drama.

patricastar - January 12, 2023, 6:31 pm

i think it's related with his oig and how he let it loose and it was found in bad conditions

Rahul007rhp - January 12, 2023, 7:20 pm

Its related to Crypto zoo . But im not following this drama who cares

Jake, on the other hand, is grinding and has been putting them paws out fr.

I guess you can't have two brothers both doing well for themselves.

Wait, this is giving me Top G vibes again, except they are both filthy rich.

Top G wins out again with his Sigma Bro.

Logan acting like he's sorry despite being a repeat offender. People will forget about this in a week though.

Black0ut - January 14, 2023, 2:37 am

I love how this will be forgotten in about a month, and Logan not fixing any of his scam coins. I feel sorry for anyone that trusted this guy with their money.
