Thread: [\(CHEAP\) I WILL SEND YOU BRANDABLE DOMAINS EVERY SINGLE DAY OF THE MONTH](#)

bronzegods - January 9, 2023, 9:26 pm

I will send you a list of brandable domains that would either have a good branding name, High DA, good backlink strength, and fewer characters. If you need domains specific to a niche, this can also be prioritized in the daily list.

Doing this for a basic fee of \$7 per month. I promise quality and consistency.
If I get a good response on the thread, I will drop the price to \$5 for the community.

Payment via Paypal/BTC

Feel free to unsubscribe when you wish. I will be manually sending it so don't worry about receiving spam emails.

Help me understand a little. What is the product being sold. Are you selling domains or backlinks?

Selling available domains that are brandable as per niche or have good metric strength. This is a service, not a product.
