Thread: [BOGO Scratchcards](#)

Omniscient - January 19, 2023, 1:34 pm

I just enabled the 2 for 1 Scratchcard sale. For every scratchcard you buy you get one free. Only good for the crypto purchased cards.

Best odds on the \$100 cards which offer guaranteed wins and top prize of 1m Bytes.

<https://hackforums.net/scratchcard.php?action=buy>

This is for a limited time only. Will end without notice so grab some asap.

Thank you.

Another great scratch card sale. If you weren't able to participate during Black Friday, don't miss out!

Omniscient - January 19, 2023, 1:43 pm

btw, just look at just the past page of winners for the \$100 scratchers. There are 4 250k winners and lots of 50k's.

Oh nice. I missed the last one so I might have to pick some up. Just curious - Has anyone won the 1m bytes prize?

Not yet. Leads me to believe any minute now someone is going to get it.

Damn, someone went crazy November 24th. Must have been a good day.

That was the huge 3 for 1 sale I did. It went too well. Flooded the bytes economy in hours. Had to pull it fast. Two for one is more than enough.

? I can imagine. Too bad I missed that. Watching the fun and the sale itself.

Got me tempted this time...

InspectorGadget - January 19, 2023, 3:47 pm

Buying the \$100 one now - the one for three offer got me like 135K bytes!

Money- - January 19, 2023, 4:26 pm

Me want Buy 1 free 2 like before.

I bet you do. How about I sell you one and you get two, like now? That 3 for 1 was insane. Can't do that.

Lrrr - January 19, 2023, 4:39 pm

Who wants to buy one with me? Make a contract and send me \$50. We split the winnings from both cards 50/50

dude i wanna go big and drop 100\$ but i also was going to do a dispensary run tomorrow and its not quite common for one to come across 100\$ BTC .__.

LSHIKAL - January 19, 2023, 5:16 pm

Good luck, everyone!

Maybe we should start a group buy for some \$100s in case we win the 1Million Bytes.

Aeowulf - January 19, 2023, 5:24 pm

Damnit you tempted me... there's \$100 BTC gone. FML.

SWEET! 2x 25k bytes.

Grim - January 19, 2023, 6:59 pm

Grabbing a couple of these looking good!

SMMFlare - January 19, 2023, 9:07 pm

Are these the scratch cards you can win awards from too? What are the chances for them?

Gonna have to at least purchase one, and get my bytes up! Thank you!

Cooligan - January 19, 2023, 9:25 pm

To this day I've somehow not bought a crypto scratch card, only the Bytes ones.

Might have to change that with this BOGO deal. ?

Sholi - January 19, 2023, 11:07 pm

Just copped 2x \$25 ones. Lets see what we can get out of the four. All in all it should be market price so WELL WORTH it imho. I'm still messed up about missing out on the 3 for 1. That was a solid winner.

15k bytes can't complain!

SMMFlare - January 20, 2023, 3:14 am

Ended up buying the \$25 to try it out. Got very unlucky unfortunately. Still an awesome sale!

pms - January 20, 2023, 4:42 am

Dang I wish my paycheck would have came in sooner. I would have picked one up.

Game - January 20, 2023, 4:44 am

Just copped a \$10 one because I'm a broke-ass.

Just waiting for the payment to confirm.

Keep your fingers and toes crossed for me ladies and gentlemen. Winning isn't a commonplace result for me.

See you on the flip-side!

10,000 Bytes. Not bad for \$10. Thanks.

Lrrr - January 20, 2023, 9:17 am

picked up two scratchers and lost on both, got the 10k min for both.

Bad luck or tight tickets?

And thanks for the BOGO. I wasn't really going to go for it. But glad that I did.
