Thread: [New Posts Into New Threads](#)

Omniscient - January 21, 2023, 11:25 pm

Should I change the New Posts search into a New Threads instead? That would show Marketplace bumps by Stanley and maybe satisfy some of the sellers grieving about the way the new setup is.

It's an idea, I can code it out.

StuffSneak - January 21, 2023, 11:31 pm

Why not keep both? That would be a good option.

SMMFlare - January 21, 2023, 11:32 pm

I personally don't view the new posts section, although I should and see why it's useful.

Rather than replacing it, what about adding it on top of the new posts? That way Marketplace bumps will still be shown somewhere, and people who want to post on discussions/other things can still find relevant content without marketplace related things

Edge - January 21, 2023, 11:53 pm

I don't think you should get rid of the new posts search but adding a new threads search next to new posts would be a great addition.

theDuke - January 22, 2023, 12:25 am

I agree with having them both. New posts is very useful to see imo and new threads in addition to that would be even better.

eXceptional - January 22, 2023, 1:24 am

Doesn't make sense.

New Post = All new replies to all threads. Including Stanley bumps.

New Threads = Only new threads, not new posts.

Either you should keep both or only new posts.

Bastille - January 22, 2023, 1:38 am

I often use new posts section, I would probably use it more than new threads, but what about keeping both ?

Cyam - January 22, 2023, 4:37 am

Although I haven't used new posts feature few years ago, now I can't imagine living without it. Please don't remove it :(

jcole - January 22, 2023, 4:47 am

I always go and check the new posts button. I would not mind a new threads option as well, but like the current setup

Game - January 22, 2023, 5:11 am

I would suggest either keeping it as is, or implement both together. Would be a nice addition, to be

able to sift through threads easier than having to trawl through posts I'm uninterested in viewing to get to something that might.

StuffSneak - January 22, 2023, 5:21 am

New Threads = Only new threads, not new posts.

Either you should keep both or only new posts.

New posts doesn't show the bumps anymore. Now bumps appear like the thread is posted again. Hence "New Threads" will highlight all the bumps.

Vibe - January 22, 2023, 5:30 am

I use it all the time and I wouldn't like it being switched to new threads.

Omniscient - January 22, 2023, 8:18 am

Well looks like consensus is both. I'll see what I can do to please the masses.

Shellcode™ - January 22, 2023, 8:38 am

I would also be unhappy if new posts section would get changed.

InspectorGadget - January 22, 2023, 8:48 am

I can see Omni see's the want for both - but im here to also say how much I love the new posts button and wouldn't not like to see that changed. Happy with the new threads addition though.

Cyam - January 22, 2023, 11:01 am

Username change and minecraft Omni avatar when? ?

Money- - January 22, 2023, 8:11 pm

Yea add in the one that will affect the market place bump. Useful or important to sellers.

I notice my threads aren't in the new posts anymore.

Blazin - January 23, 2023, 1:23 am

I really like the new posts button, I use it almost religiously on hackforums. I would be a bit unhappy to see it go, but I would adjust, having both would be best, but I think it's a really slept on part of hackforums the new posts, I find myself clicking it multiple times a day sometimes, just to see the new posts on hackforums.

eXceptional - January 23, 2023, 8:41 am

Doesn't make sense to me. New posts should stay the way it is or it should be both.

StuffSneak - January 23, 2023, 8:57 am

That's how it is working right now after the marketplace bumping change. Now Stanley doesn't post on thread so the bumped threads do not appear in new posts now.

So it indeed has been changed already. And that is why Omni is asking about this.
