Any amount can be traded but it is recommended to have at least \$100-200 on binance futures wallet.

Can I use bybit instead because being from the USA binance future closed my account.

Yes, we support Bybit as well :)

TheSlifer73 - January 24, 2023, 4:52 am

look interesting! will take a look

Roger0324 - January 25, 2023, 3:42 pm

What's the difference between your service and just copy trading directly through the binance or Bybit app?

blvckmonk - January 28, 2023, 10:24 am

Is there a way to see recent or real time results?

Jbobon - January 31, 2023, 1:12 am

ANY RESULT? can you share

Traderboard - January 31, 2023, 1:40 am

Sorry for late reply but my HF account was limited because I posted in wong places.

You can check traders performance from the site, that's enough as result proof as you will be fully copying them.

do you support bitget?

Currently we support Bybit and Binance.

A lot of people are asking for bitget, I guess we will integrate it one day

adguy1988 - February 12, 2023, 12:10 am

any vouches on this yet?

Valuehunter - February 13, 2023, 6:40 am

I'm also curious if you're doing vouch copies. Have used other trading services also, so I can write a comparable vouch review. Let me know. [warn]

Binance does not have any function to copytrade its own leaderboard, bybit can't copy binance's leaderboard.

I can't vouch for this service nor am I trying to diss OP but I did find a review online. Unfortunately, not great. <https://www.trustpilot.com/review/traderboard.app>

That guy was unable to setup his own Bybit API key and complained us although we tried to help him, he insulted our staff and got banned by our live chat.

What's our mistake here?

Traderwagon take % from profits and with this service, you only pay for copy

A lot of exchanges offer copy trading for free... What makes your bot worth it?
