I welcome everyone. To your attention the "InstallsKey" service for selling installations for a client's file.

USA(USA):

1.000 installations - 1.000\$

On request, there are UNIQUE streams in ONE hand: WW, EU, USA!

The "InstallsKey" service shows that it is happy to give discounts to customers who are ready to buy volumes and our service always makes concessions to the client, the credo of the service is "The client is always right!"

Payment accepted in BTC/ETH/USDT TRC-20

The sources of installs are - a private exchange and Google search traffic, which makes the "InstallsKey" service competitive and even one of the best in the market in terms of quality. The strait is made in several hands.

Refunds are made in one case: the "InstallsKey" service cannot make a strait for more than 2 days from the issuance of the file by you!

I would be interested in a test run of this service. Can you tell me how much that would cost and how many bots you can deliver in that test?

Also, how quick do you deliver?

Thanks.
