Thread: [13yrs old making little money, 23yrs old co-founder of an Australian company branch](#)

Hey, I'm Abz, originally from Egypt, but lived my whole life in Saudi Arabia.

I'm from a family that lived their life in debt, till now but it's much better than before.

Me and my twin brother were always figuring out a way to get followers on our personal FB & IG accs.. It was cool in school that we've +1M followers on FB. We were getting for our friends followers for free, we didn't know that we can do money out of this.

Everything started to change when a man from Qatar sent to us a message on our 35k followers IG, he told us that he want to buy the account, we thought why not. ? We were able to make a deal with him for about \$150, I don't understand why he trusted to send to us the money before getting the account, but he did.

We started increasing accounts and sell them, then we started to know that people in Egypt are selling IG accounts with followers for like 20 cents/1k. It was very cheap we were able to buy an account for 100\$ and sell it for 400\$ sometime more sometimes more than this and sometime less.

My mom and dad were afraid that we will start smoking, doing drugs, hang out with girls.... They were taking most of our money. It was huge disappointing for us, we were very stressed.

Between the age of 15 to 20 we got scammed several times, we borrowed \$2k from someone and we started a business with someone, he scammed us, it was a very big amount of money for us at this age. Now we should pay the \$2k by ourselves no business is gonna pay it for us. We were able to pay it in about 4 months. We learnt a lot from this. We got scammed by many ways, I hate being scammed, but I admit that we learned a lot from it.

We kept trading in social media accounts. We started to make some connections, then we were able to resell social media services.

We have done business with more than 300 clients till now. I should admit that we weren't able to provide any services by ourselves, but we were usually doing profit more than the main provider, for example the provider asks for \$100, we get from the client \$200+. We have done more than \$150k profit in within one year, the last year from the end of 2021 till the end of 2022.

Now we are the Co-founders of a branch of a big Australian Company in Egypt and I'm the marketing manager at the company, we're planning to start a branch in Saudi Arabia also. We've done work and management contracts with many famous people and brands. We've different types of investments. We've a connection with an Australian business tycoon he trust us, he let us in his home for more than 20 days to do business with us and teach us.

I want to say that you can do what you dream of, never give up. In this 10 years it was usual that we can't find clients for months (but we never stopped trying to do work!), we cried a lot, we were very stressed for years. We have been using WEED (Afghani HASHESH) for 3 years. We were always terrified that our parents might be right, we should go to college and start searching for a fixed salary, because business is not for people like us. Our parents were our biggest obstacle. But

at the end we still love them and they still not convinced by what we are doing. ?

I don't know exactly why I'm sharing our story, but I would feel amazing if someone of you got motivated by this shit. ? Also, if anyone one wants to ask about anything don't hesitate to ask, I'm would love to help.

Sorry for this fkn bad grammar. ?

This is inspiring for sure! Thanks for sharing. Have you been able to help out your parents with money?

Thank you ?

Yes but they can't get out of debt. Our expenses are much more than the income. We're trying to help as much as we can, but we need to invest money, we need to keep money for any business opportunity that needs money. We can't give all what we do. But I believe soon they will don't need to work anymore.

"....My mom and dad were afraid that we will start smoking, doing drugs, hang out with girls ..." wait what?

Please don't tell me they prefer you to date boys?

Hahaha ? No! We can't date girls in my religion, we should talk with the family of the girl that we want to marry, then we can hang out together with the permission of her family. Then we get to know each other more. Usually it takes 1 year or more to decide if we really can marry or no. So they were afraid that my I might do something wrong like that, I was young and probably I will not talk with the family of the girl, it will not be a serious relationship, just wasting money and time.
