Check this out, it's an sms bomber. It looks like it works in windows, but I've only tried it on linux. I received a few texts on my test phone before it got blocked. Looks like you need some proxies for this to work well, luckily it has the option for that. Enjoy my friends

Geofry Handsome - January 31, 2023, 2:43 am

Dude, this Bomber is three years old.

KillrBoy - February 1, 2023, 11:23 am

wow nice i must give a try
