How much i've made alrady?

a bit of last few months profit : Spoiler ([Click to View](#))

FAQ :

-Will this last for a while?

It's been around since 2015, things got complicated with time but we have the solution for everything.

-Is it related to ETH, web3 or nfts?

No, the profit picture is just me storing a bit of my money into ETH, payouts are usually in BTC.

-How long till i make back my money?

3 days at most

-How frequent are the payouts

Few hours after doing the setup, and Everyday

-Is it Autopilot?

No, requires few hours of good focus, but the profit is totally worth it

-Is it saturable?

Yes and no, as long as you don't leak it to the public and have hundreds of people doing it, we're all fine

-Are there any specefic requirements?

Everything will be included in the package for you to work with untill you make back your money, then you may need to buy something from me, which will only represent a small 15% of your profits each time you run out of it, while you can get it by yourself, dealing with me will save you a lot of

time.

-Do we absolutely need OpenAI?

Not really, but saves us a lot of time by automating things that have to be done manually.

-Can you teach me for free and i pay you from profit?

No.

Current price : 750\$

Middleman accepted, at your expenses, releases the funds to me after i reveal the method and finish the mentoring and you make your first profit, i reserve the rights to refuse dealing with someone if i believe you're lazy or unworthy

sancoxo83 - February 10, 2023, 3:23 am

Honest review here :

Vouch for OP, i never post or judged some ebook or method be worth it but this is different
Mentoring took a while, many hours to learn some technical stuff about the method but in my case i had 0 background knowledge about it so that's probably why

OP has an original way of teaching you, he just throws you into it and let you face problems yourself and then proceed to correct you and teach you why this and that occurred..

So far i'm only down 217USD, made 583USD in one day, i should make my money back + profit in 2 days if all go well and then i'm going down on this gold mine full time

i did not have to use AI for now, but i can clearly see why he pushed me to use it

This actually could be saturable at a certain point but the way OP manages our work can make it last for a while, as long as other customers respect instructions we can all make a bank and OP actually gets a % of it (applies only after we make our money back)

Conclusion I 100% vouch for this and hope OP chooses other students very carefully to avoid any conflict of interest between all members of the team

So we need to give him a % of our earnings after learnt the method? lol

You can stick to your minimum wage job if that doesn't suit you

\$800x3 is not worth it for me to open this thread and bump it from time to time

Goat - February 13, 2023, 9:57 am

Would you agree on that the MM holds the funds until money is made back ?

If so, then I might be interested.

Cheers,
Goat

I was about to buy the method but if I buy it I don't want to give you a % lifetime sorry, and you don't need to bump your method, since you wanted just a 3 buyers, right?

Its his choice for what he has to sell his product. If you are not interested in those, no need to bash him unnecessarily. If you indeed end up making 400\$ per day, what's wrong with giving him a small % of profit? I am assuming the % is small. Considering the price he is selling for, it should be worth it? he can't just go ahead and sell for 5000\$ as no one will buy it.

Also [barukoru](#) , if you are going to charge your customers a % of their earnings, you should also mention that in OP. Good luck!

barukoru - February 16, 2023, 8:13 am

This is a bump, don't have enough bytes to do it with the button.

barukoru - February 18, 2023, 12:28 pm

Edit : Lowred the price, i don't know if hackforums is a bit dead or you guys can't afford it, although MM are accepted, i don't fully understand why this doesn't make noise
