Thread: [Hackuman Avatar Gallery](#)

Omniscient - February 7, 2023, 4:32 pm

These are now part of the avatar gallery for all members to choose from. These are all custom Lunge images made by members.

<https://hackforums.net/usercp.php?action=avatar> (select Hackuman)

Enjoy.

Love some of these. My fav is the first one, looks trippy, will probably use it after I get bored of this one.

DemonAsylum - February 8, 2023, 12:35 am

Been looking over these for a bit now trying to decide which one I might want to rock. Considering

my name, might have to go with the red demonish one with devil horns. Think it would suit me well ?

DashPHP - February 9, 2023, 12:32 am

They look really good to be fair.

Might wear one!
