Thread: [someone to buy dowloads with paypal/card \(paying XMR/BTC\)](#)

yaroslav - February 9, 2023, 4:04 am

Hi,
I'm looking for someone that can buy me some digitally downloadable products using their paypal/credit card.

Those items are usually 40-60\$ and after you buy; you download a zip that I want.
I can pay you XMR or BTC with markup of 20-30%. So if the item is 50\$ and you pay 50\$ via YOUR paypal/cc I will send you ~70\$ XMR/BTC.

The site I need things from is <https://themeforest.net/>

Ideally it would be for long term / couple of times.

If the item is \$50, there is still a percentage fee that varies by country, so the user will pay more than \$50 for a \$50 item.

As long as it make sense for other party I can adjust the fee %.
